We refer to price and quality.

IIO USE to believe a shoe dealer who tells
you that the shoe you pay $\$ 2.50$ for, is as good as the one which costs $\$ 5.00$. Such after you have worn it a little while it gives the whole thing away by falling to pieces. This is exempt; but a shoe that has nothing to recom mend it but a low price, may be a very expensive

Quality is higher, and p.ce lower here than else
