—This may be a queer and over-metaphorical way of putting the matter, but it is true nevertheless that "the land is not as good as a bird as the June bug, but he is the St. Bernard of the garden and worth his weight in cut worms at any stage of the game."

—The editor of one of our esteemed contemporaries says he stepped into the store of a business man who did not advertise, and was surprised to find him busy. The storekeeper had the itch; he was scratching himself and when he wasn't scratching himself he was winding his watch.

—The motor cycle is here and it is a success. The motive power is a combination of the electric spark with gas, kerosene or gasoline.
