WHY IS THIS?

It is easily accounted for, our theory has always been that if people are treated fairly and honestly they will appreciate it-and for fifteen years we have pursued

Never Misrepresent, nor try to get Rich off one Customer And people have found this out and prefer to deal where they know they get the worth of their money-

Neighbor!

The question to ask yourself when you think of buying a buggy or harness is—does the dealer know what he is selling-will he sell an article for just what it is and at the lowest possible price, also is his knowledge of the business sufficient that I may rely on it. Then patronize such a firm -if after all these years our reputation is not such as to meet all these exactions in your mind, then go elsewhere-bear in mind that buggies are cheaper now than ever in the history of our country, and the season is here when you need one.

He is the discoverer of a wonderful medicine known as Dr. Pierce's Golden Medical Discovery. It is a marvelous medicine for broken down men and women. It whets the appetite purifies the blood, makes the digestion perfect and the liver active. Through the blood it acts directly on every organ of the body, driving out impurities and disease germs. It is the great blood-maker, flesh-builder and nerve-tonic. It cures nervous prostration and exhaustion, malaria, liver troubles, rheumatism, blood and skin diseases and 98 per cent. of all cases of consumption, weak lungs, spitting of blood, lingering coughs and kindred ailments. When you ask a dealer for the "Golden Medical Discovery" insist upon having it. A dealer is not a physician and has no right to advise some substitute.

When the trouble is of long standing write to Dr. Pierce, who will answer letters from sufferers without charge. Very serious or complicated cases, or those needing surgical treatment, sometimes find it necessary to come to the Invalids' Hotel and Surgical Institute, at Buffalo, for personal treatment and care. Dr. Pierce can be addressed there. hundredths of an inch, and high winds frequently cause a slight variation from the normal position of the wire. Occasionally the plummet swings violently when the weather is calm and cool, its motion under such circumstances being ascribed to vibration, of the array it-

The custodian of the monument takes a daily statement of the transits and prepares a monthly chart of the same, which is filed in the War Department. An examination of these records discloses the interesting fact that no permanent change has been effected in the position of the monument, the plummet having always leaned toward its normal resting place when the causes of disturbance subsided. The Woolly Horse of Lackawann.

There comes from Masonville the strange story of a peddler and his horse The vender of pins, needles and brica rac landed at a farmer's home one night and asked to remain untill morning, as his horse was sick. The farmer gave his consent and helped to doctor the horse; but, in spite of their combin ed effrots, the horse died, was skinned and they went to bed. Some time in the night the farmer was disturbed by hear ing a strange noise and arose to invest gate, when he discovered that the horse ad recovered and was frisking about to keep warm. Feeling sorry for the nimal, he proceeded to cover it with sheepskin, which took root and grew.
