What Decoration Day is to the G. A. R., Washington's Birthday to the Jr. O. U. A. M. and the Fourth of July to every man, woman and child big enough to know he is an American and patriotic enough to rejoice thereat, is the annual opening to the public of the alded by Pittsburgers as the opening of the fall season of prosperity, for it means that to the business man and it means more to the general public—the that are each of them after exough to occupy the attention of a single visit. It is the place of resort of all classes and conditions of people, and if the Exposition, perchance, should miss a season. Pittsburgers would find a void hard to fill and out-of-town visitors one of their great annual attractions.

The record of the Exposition the eight seasons it has been opened bear out these assertions. It is a fact that the average attendance in round numbers has approximated 400,000 people each season of forty days, and of this number the out-of-town visitors have averaged 45,000 annually. In all debilitated conditions and wasting diseases it is vastly superior to malt extracts or any mere temporary stimulants. It gives permanent strength. It is better than nauseous emulsions, because it is agreeable to the weakest stomachs. averaged 45,000 annually. The ninth annual Exposition this year opens on Sept. 1, but a few weeks hence, and closes on Oct. 16. It is superfluous to say the big show will be greater than ever. Every year has been greater; but the truth is, this year there will be a greater variety of entertainment than has ever before been attempted. To be sure, the main building will be stocked with magnificent ng will be stocked with magnificent exhibits—many of them entirely new— to please the ladies and their consorts. to please the ladies and their consorts. The concerts, with seating capacity for 5,000, will be held in this structure as of yore. The big machinery hall will have many new me-hanical ideas, especially in the agricultural line, while the merry-go-round, the roller-coaster, the steamboat excursions and other outside attractions will receive generous support. The great foyer of the main building, beautifully painted, illuminated with electricity and sheltered and bowered with rustic decorations, will prove one of the most attractive spots. It will be cool as a cucumber here, and plenty of cozy seats will suggest the seaside resort, the mountain summer homes or the bowers of pleasure along the great lakes.

Then there is the cinematographe, the most wonderful and realistic photographic reproduction of moving scenes. Thousands will have their first opportunity to see this great inventon at the Exposition. Its marvelous and attractive actual living scenes are the wonder of the civilized world today.

As to the music, there is Sousa and his great band to begin with. You pay a quarter to hear Sousa, the march king, at the Exposition, whereas you would pay a dollar to hear him elsewhere. Then there is Brooke and his famous Chicago Marine Band of which the Window City is as prond of as it was the World's Columbian Exposition. Then there is the Bellstedt-Ballenberg Band of Cincinnati, one of the great musical organizations of the west, said to comprise within its membership the best soloists in America. Four band concerts are given daily, two in the afternoon and two in the evening.
