More general interest probably cen tered in the Greater New York election this year than in any other election, and and the returns show the election of Van Wyck, the Tammany or regular Democratic nominee, by a plurality of 85,000 over Seth Low, the Citizen's Union candidate; and Low has 50,000 more than Gen. "G-eater New York" will include the present New York. Brooklyn and several adjoining towns and have a population of about 3\cent millions—making it the second city on earth, and the patronage at the disposal of its first mayor will amount to about \$70,000,000 a year, and this great city will have a tremendous influence in national affairs hereafter. The election returns indicate treachery on Platt's part; it looks as though he and his lieutenants threw to Yan Wyck. "The Platt grip on the Republican organization was used to prevent the victory of the reform element. Platt's lieutenants declared before the campaign that sooner than let the victory be won by a party that would take the city government out of the list of party spoils they would prefer to see Tammany returned to power. The position of Tracy as third in the feturns puts his candidacy in its true hight as useful only to secure Tammany's victory."

WASHINGTON.

The Administration is not devoting any time to the consideration of the answer of the new Spanish Ministry to Minister Woodford's proposition, the full text of which is now on its way to Washington, because the substance of it has been known for some time and it has been fully determined to grant the new Spanish Minister a reasonable time in which to try to put its new policy into effect in Cuba. The only thing that may change this programme is the manner in which the Spanish reply deals with the efforts which have been made by their Gayard ment to prevent the delivers, Mrs. Mather testified unwillingly.

When the case was called, Lawyer was called, Lawyer was the returned both envelopes sealed, so the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the guise of guidance from on High, engaged the attention of Justice of the Monroe in the town hall. A breat of two centuries ago blew through the hall.

The with the efforts which have been made by this Government to prevent the departure of fillibratering parties for Cuba. If the tone of the answer is what Spanish publications have indicated it to be, it will be promptly resented by the Administration. More than \$2,000,000 has been spent by this Government in efforts to prevent fillibustering and to live up to its international obligations to Spain, and no intimation that the Government has been negligent will be tolerated. It is thought that such talk appeared in the Spanish papers solely for its effect at home, and that nothing of the sort will be found in the efficial communication.

When a really good idea is made known the average person of intelligence wonders why it has not been thought of before. An idea of that kind was laid before the Cabinet by Secretary Gage, and at once met with general approval. The Government issues three kinds of paper money, and the notes of each denomination of each series have different designs, which are taken advantage of by that class of swindlers who make a practice of raising notes and passing them in crowded places or upon ignorant and with the efforts which have been made by this Government to prevent the de-

tice of raising notes and passing them in crowded places or upon ignorant and unsuspecting persons. Secretary Gage's idea is to adopt one design for all the notes of the same value of the three kinds of notes issued, and to make that was to be a great night, and Sister Mather, unable to walk for eight years was to walk at its conclusion.

Political.

The two public meetings between Quay and Martin and Magee on Wednesday and Thursday of last week are said to have not been the only ones. A Philadelphia story, for which authentication is claimed, has it that Quay met Magee at P. A. B. Widener's home in Philadelphia on Monday night and met Dave Martin at the same place Tuesday evening. The same report has it that the terms of the fix-up were a deal by which P. A. B. Widener is to be the which P. A. B. ## A Day of Thanksgiving.

In Remembrance of God's goodness to us during the past year, which has been so abundant, "Let us offer unto Him our thanksgiving and pay our vows unto the Most High." Under His watchful providence industry has prospered, the conditions of labor have been improved, the rewards of the husbandman have been increased and the comforts of our homes multiplied. His mighty hand has preserved peace and protected the nation. Respect for law and order has been strengthened, love of free institutions cherished, and all sections of our beloved country brought into closer bonds of fraternal regard and generous co-operation. For these great benefits it is our duty to praise the Lord in a spirit of humility and gratitude and to offer up to Him our most earnest supplications.

Have you ever calculated how much is saved in the long run by having your clothing made by tailors who know their business. You get better goods, more careful workmanship and the fit and

style are worth a great deal. It's a satisfaction to wear firstclass, well made clothes, and then it's economical as well. Clothes that fit, wear longer, look better and are more satisfactory to the wearer. Those who wear our

garments appreciate this. Stop and calculate. Do you wear tailor-made clothes? In they're to be bought that case you have garments that -but send where last longer, wear better and suit you will for samples, you more completely than any other. Every garment is made in the best style. No accidental fits. No disgraceful effects. It and you'll find such is cheaper to wear custom clothes styles and qualities than any others.
