Now that Fall has come, we can't go barefooted any longer. We wear shoe from the time we are up until we retire, and some people-men-have been known to wear them to bed. That's probably when the shoes are tight. All our shoes are problibly interacted. Mother, and should be avoided, that she may reach the hour when the hope of her heart is to be real-ized, in full vigor and strength

THE CITIZEN.

The Culture of Chestnuts. The Lancaster New Era says that people are beginning to realize that there is money in growing chest-

nuts. There is never a glut of these nuts in the great city markets. They may become plentiful in the country towns and around the places where they are grown, but a prompt market can always be found for them in cities,

and at full prices, too. But it seems to not only makes life miserab to lead to something worse, y taken in hand and correct h to attempt to dodge such to ible way is to get rid of them been made and the proper attention springs dry they move toward the riv-er. Cat and Rattler.

Richard Moyer, who lives about three miles south of Rockwood, Somerse county. Pa., on the Baltimore and Ohio railroad, says that he has a big hot cat that hunts and kills snakes as an or dinary cat does mice. Mr. Moyer, is a stonecutter, and is working at Woods Run. His home is in the narrow valley of Casselman river. The house stands on a strip of bottom land between th railroad and the stream. Rattles are common and domestic enough their taste to crawl under the from men that there can be more made on porch or into the hog pen. The snakes keep pretty well to the mountains durchestnuts than almost any other crop, when the proper choice of varieties have when the proper choice of varieties have

down early. Baltimore & them Ohio trains crushed the lives out of many as the reptiles sunned themselve on the tracks. One morning Mrs. spronts with im- Moyer found the cat and a big rattler in combat. The dog watched the fight hantable timber has been cut away. from a safe distance. Mrs. Moyer said The most recent case is that of a citizen that the action of both combats of New York, who owns a large tract were so rapid that she could ha of chestnut-timber land in Luzerne tell the cat from the snake. The ounty, this State. The standing chest- lost its hold and was getting the wo nut trees, having reached the merchant- of it for a while. The fight ended sud denly by the death of the snake. Pus and year thereafter ten thousand had landed one hard bite in the snake's prouts were grafted with the large neck. The cat went into the house, apanese and Spanish varieties. In lay down behind the kitchen stove and stayed there for two days. In that time it did not move nor eat, and hard ly seemed to breathe. On the third day the cat revived, ate a hearty mea

and went out. Since that time its chards can be started, and their chief end in life seems to be the exterm ination of snakes. The cat hunt them along the railroad, in rocky dens by the streams, and will even ventur into a groundhog hole like a ferret t eek snakes. When fighting a snake

Mr. Moyer, says, the cat is the fiercest looking creature he ever saw.
