He says the Cubans in waging war for independence, thinks they will keep it up until the resources of the Spanish are exhausted, and that when they do attain their independence they will be capable of governing themselves. He says a small part of Cuba has heretofore been under cultivation, the soil is wonderfully fertile, the climate delightful and plantations that before the war were worth half a million can now be had for thirty or forty thousand.

—Among the many revivals heralded this season the most important is that of the old favorite "Ole Olson." In it we have not only the authentic original play but almost the entire original cast, and it addition a great and original bicycle race which is the sensation of the season. The comedy has never been presented in as complete and spectacular manner as this season and is packing the theatres everywhere. At the Park Theatre, Friday, January 28.

—It is a serious matter to tear down a card placed on a house by the sanitary officers to warn people that there is contagious disease in the house, and the party who does it is liable to a fine. This is not under city ordinance, but under a State law, passed several years ago. When this disease is in a house the general public should know it, and knowing it they keep out of the house and away from danger. In order that the disease may not be spread. If they are not warned they are liable to go in to the disease-infected residence, and that is the way contagious diseases are spread and much mischief caused. The placards are a warning and should not be tampered with.

The Borough Primaries.

There were but few contests last Saturday, and less than half a vote out.

James A. McDowell and James W. Miller contested for the Republican nomination for Borough Auditor, and McDowell had majorities in the 1st, 3d, 3d and 5th wards, but Miller carried his own ward, the 2nd ward, and the 4th ward, and that nominated him. In the 5th ward the Republicans and Democrats agreed upon a ticket, and in the 3d ward John Smith beat Thomas McInair for the Democratic nomination for Assessor by a few votes, while the Republicans put up Wm. Craig, without opposition.

The 1st ward Democrats did not hold their nomination until Tuesday. The complete tickets are as follows:

Echo.

While it is claimed that the best of the world is in the castle of Simenote, in the Milan, Italy, which repeats the echo of pistol shot sixty times, here in America we have an echo which is much more remarkable, the universal echo that has been repeating for years the praises bestowed on the popular and popular comedy "Ole Olson." It returns this year upon a more elaborate and more spectacular stage than ever. The cast is an exceptionally strong one—embracing all the old favorites—and nearly all the originals. The great feature is the bicycle race, the most exciting and thrilling thing to think of what extent stage realism will be carried.
