LOCAL AND GENERAL.

—Hallowe'en comes on the 31st.

—Our first "killing frost" is billed for the 24th.

—Business men who have not yet ordered their calendars for '29 should see our samples.

—This is the season the churches change their time for both services and Sunday school.

—John Barry of Franklin twp. took over 100 pounds of good, clean honey from one hive of bees this fall.

—The Macabees of Butler have organized a band with R. G. Crawford as leader, and Prof. Knock as director.

—Matches made without the use of phosphorus, and which can be "struck" on any rough surface, are a new discovery or invention.

—The G. A. R. Post at Riddles X Roads will hold a Memorial Service for their own dead on Saturday, Oct. 15, beginning at 1 p. m.

—An 8th Ohio man was on our streets the other day wearing a duck suit trimmed blue. These clothes were issued to the boys at Santiago.

—When the crust of earth on West street, opposite the jail was taken off last week, a hollow place between it and the sewer pipe put down years ago was discovered. According to scientific men we are all living on a crust—and some people in more senses than one.

—On Thursday last our new military company received its guns, belts, knapsacks, etc. and drilled in Armory Hall with them on that evening.

—The barn on Chris Hinchberger's place in Butler twp., now occupied by W. E. Spencer, was destroyed by fire, with all its contents, Sunday morning.

—At the meeting of Council Thursday evening the application of the Atlantic Refining Co. for a permit to build storage tanks within the borough limits was refused.

—The Pittsburgh Dispatch put out an excellently illustrated edition of thirty-two pages last Sunday devoted to the Knights Templar and welcoming them to the city.

—The motto, "In Hoc Signo Vinces," so numerously displayed on crosses in Pittsburgh this week, and the motto of the Knights Templar is Latin for, "By this sign we conquer."

—The County Commissioners sent the Van Dorn Iron Works a New York draft for \$2,147.00 last week, in full for the new jail. The entire cost of the improvement will be about \$35,000.

—Pittsburg has been resplendent with plumes, badges, brass buttons, swords, signs, mottoes, flags and electric lights this week; and she held enough tents to organize a dozen Houses of Lords.

—J. D. Smith, of Clearfield twp., claims to have the prize pig of Butler county. It is a two-year-old Chester White, weighing seven hundred pounds and large enough to carry a few more hundredweight.

—The Good Will Hose Co. will celebrate their 20th anniversary on Tuesday evening Oct. 23rd, with an open meeting at the Park Theatre. A special programme is being prepared for the occasion and an invitation is extended to the public to attend the exercises.

—Apples are not overly plenty this year but some of them are very large. The Baldwin is usually a small apple, but those on the W. White trees grew very large this year. Some samples were brought measuring from 10 to 19 inches in circumference.

—The low rate made by the P. & W. for the school excursion to the Expo. last Saturday—35 cents and \$1.05—took a large number of Butler people to the city. The 8 o'clock special of eight cars and the 8:15 and 10:05 regulars were all crowded, and in the Butler county was in evidence everywhere.

—The new railroad will parallel the P. & W. from Carbon Centre to Butler and connect here with the "Bessie." A force of men in the employ of a contractor, Mr. Dolan of New York, began work Monday on a mile or so of road from a point on the Bonnie Brook to a point on the Commonwealth connecting the two roads.

—At the last meeting of the School Board of Butler Miss Elvia Coe of Walker Ave. was elected to teach in place of Miss Nellie Meeks, resigned, and Fred Reed of the 1st ward was elected town officer. There are now 2100 children attending the public schools of Butler, which with the 400 attending the parochial makes a total enrollment of 2500. Mr. Reed has declined the proffered office on account of a previous engagement.

—One of the sights of the town is the display of corn in John Bickel's show windows. Last spring John secured a supply of seed corn from York state and gave it to his customers, offering a prize of ten dollars worth of shoes for the best dozen ears produced from this seed. About a hundred displays have been offered for the prize and are now on exhibition in the windows, and the judges will make their decision on the 19th. The ears are all large and full and some samples of the stalks are four feet in length.

—The proposed new "Union Station" for Pittsburgh is to be a magnificent affair. It will cover the ground now occupied on Liberty Ave. with extensions towards the hill and down the avenue. The basement will be on the level of the street and will be used for freight and baggage. The first story will be four feet higher than the ground now occupied, and all the tracks will be raised to that level, those of the Fort Wayne spanning Liberty street and also Penn avenue on trestle work. The building is to be five stories high. The broad street station in Philadelphia, one of the finest buildings in the world and a dozen stories high, was built and the old one taken down at the same time with no suspension of travel, but in that case there was no change made in the level of the tracks. Here there is a change of 14 and 15 feet, and if the engineers undertake to do the same thing it will be interesting to see how they manage the job.

The Knights.

NOTES.

About a thousand Butler people and two or three thousand Butler county people in all went to Pittsburgh and Allegheny, Tuesday, to see the parade of the Knights Templar. Some of them paid a dollar for a seat, others bought 25-cent camp stools and some stood. One Butler man went into a store and paid 15 cents for a small pine box, which he first used for a seat and afterward as a hat box. The parade was unusually bright and fine. The marching band and parade started off all right, but after noon the rain came down in torrents and wet part of the Knights, and scattered the masses of humanity that had gathered along the four-mile route. The Butler Knights, or most of them, were with the Tattered Tons, marching at the head of the procession and got off easy. The Pittsburgh press stated that 11,000 Knights were in line and their estimates of the crowd ran from 100,000 to a million. That night there were numerous receptions, and a grand ball at the old East End car barn, the Knights Templar. The parade was a success and taken altogether it was the greatest day Pittsburgh has had for years.

OIL NOTES.

NOTES.

The market advanced to \$1.08 Thursday afternoon, \$1.10 Monday and remains at that price. DEER CREEK, Pa. W. Phillips is reported to have struck a 200 lb. well on the Marshall farm, Tuesday. ALLEGHENY TWP.—Heyrick's Rosenberg No. 11 is the best and showing good oil. The well is being drilled on his 5-acre lot. The Chestnut Ridge Oil Co. has a rig up on the C. Walker road. SHIPPERS.—During the month of September the shipments of Pennsylvania or white oil were nearly 900,000 barrels, compared with 800,000 barrels in the month of August and 714,457 barrels in August and of April 282,072 barrels in September. The June in excess was 10,949 barrels, that of May 280,483 barrels and that of April 282,072 barrels. The stocks of Lima oil were 2,282,283 barrels, of which 1,100,000 barrels were added to the decline in Pennsylvania stocks makes a total decline of 2,282,283 barrels for the month. The discovery was made by the workmen who are building a road from Clearfield Bridge to Belsana. As the well is being drilled, the oil is being pumped to the surface through a rocky hill they unearthed the perfect body of the Indian at a depth of seven feet.
