A LITTLE GIRL'S LETTER.

Written to the President Secured Her Brother's Discharge from the Army.

OUR NEW POSSESSIONS.

The new possessions added to the territory of the United States within the past year are equal in area to all of the New England States.

The aggregate population of the islands annexed is about 100,000.

This annexation business is a new departure for the United States, and is a reversal of our previous policy.

But as the most enlightened, justice and liberty loving people on earth, why should we not extend the blessings of constitutional freedom to those people?

Our new possessions may cause us considerable annoyance and give us some new and great problems to solve.

But that is what we are here for. True greatness does not shut itself up in the oyster shell of its own selfishness and refuse to be bothered with inferior peoples.

But enters actively and energetically into the great work of extending the boundaries of civilization and increasing human happiness throughout the world.

The flag of freedom floats over the crude habitations of these islands because the Infinite Ruler of the Universe would have it so.

It is destiny. Is there not wisdom, justice and mercy in it beyond human understanding? Why should anybody whine and lament because the yoke of the most tyrannical, bigoted nation on earth has been lifted from the backs of nearly ten millions of souls and their destinies linked with the most liberal and enlightened nation on earth?

Why should we weep because ten million people have turned their faces to the dawn?—Punkstunaway Spirit.

It knocks them all out. Hoxie's C. C. C. is the only remedy known that will cure a cold in one hour.
