TREASURE OF SANTA ROSA REEF

CLARENCE HERBERT NEW. (Copyright, 1898, by J. B. Lippincott Co.)

From another locker Halstead took a square mahogany box, covered with rubber and having a lens in one side. It looked something like a kodak, but it was not.

There was a charming creature, that girl, in spite of her ridiculously old-fashioned dress. She was the first to see her in her becoming clothes, as I knew I should when she had time to examine the contents of her box.

My feeling of anxiety may be imagined as I stood waiting below decks, for that tip of coast line to come in sight. The loss of the trail log screw, from various causes, is a frequent occurrence; and I was greatly relieved to find the line still whirling every time the screw twisted it.

White we were looking about the place, Padre Bartolomeo gave me a general introduction to the figures in the niches, as brothers who had held his position in former years. It was an amusing matter to appear interested in the position of former years.

That is the blessed Fra Ygnacio, senior," he said, "the most worthy of all the brothers who have held the office of superior. He was a very good man, and his good qualities were well known to all.

That night, in my quarters at the governor's house, I tried to arrange a plan of action, but my mind was in a whirl. I had little doubt of being able to find the reef, but it was a matter of considerable importance.

When we got abreast of Coeos you can pull up your log, which will give you the exact number of miles on that coast to a fraction; from Coeos to Orote the chart distances are near enough, because you've got land bearings.

Padre Sebastiano was more surprised than I was. He said that he had accepted an invitation to remain with the governor, on the island, and Diaz also wondered why an active American should be thought of as taking a place for three months; but it afterward came out that I was credited with being more of a savant than a business man.

FASHION'S FANCIES

The Latest Fashions in Dress That Have Caught the Fancy of the Ladies. A fur hat with white lace draped around the edge and a mass of white tulle bows and ends at one side is a bit of typical fashion.

Gold bracelets are in big round bands, as large as the jade bracelet set, with regular intervals, with big knobs formed of jade, amethysts, or effective semiprecious stones. They are stylish.

A pretty white scarf for the neck is of the finest and sheersat wool, hemstitched across the ends and down the sides with a row of white stitching.

A handsome chinilla collar has a straight round edge of blue velvet, encircled with cut glass buttons. The chinilla falls over its in points, the standing collar being of the fur. It is a handsome collar, though the chinilla is not so much in vogue.

It was rather a primitive affair, as far as construction went, but strong against the wind. The hull had been hollowed out of a tree trunk and was pointed at each end.
