THE CITIZEN.

the average physician will attribute these feelings to heart, stomach or liver trouble. For years, possibly, she takes their prescriptions for these ailments without receiving any benefit, then, in final disgust, she throws away drugs, and hopelessly lest matters take their course. A woman who suffers in this way is almost invariably a sufferer from weakness and disease of the distinctly feminine organism. There is an unfailing and inexpensive cure for all troubles of this description. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs concerned, making them well and strong. It heals all internal ulceration and stops debilitating drains. It takes the pressure off the nerves and makes them strong and steady. Under its marvelous merits thousands of women have been made healthy, happy and robust. The "Favorite Prescription" restores weak, nervous, pain-racked women and makes strong, healthy, capable wives and mothers. With its use all pain and suffering disappear. All good medicine stores sell it and have nothing else "just as good."

Constipation and torpid liver will make the most ambitious man or woman utterly good for nothing. Dr. Pierce's Pleasant Pellets cure them. One little "Pellet" is a gentle laxative and two a mild cathartic.

Dr. Pierce's 1000-page illustrated book, "People's Medical Adviser" sent, paper.

It is alike valuable for silo, for soil-

ing the flock in the cool shadows of the midsummer day, or for grazing the sheep in the cooler hours of morning and evening. Nothing equals it for ewes and lambs during the nursing period, and for weaning lambs it is incomparable, carrying them from mother milk to self sustaining lambhood with scarcely a sign of shrinkage. It is without a rival in all the list of succulent summer and autumn feeds for starting expresses the foregoing opinion of the value of rape, gives also some practical

directions, as follows, about its culture: and is a grazing and soiling plant, not susceptible of conversion into hay. It developed her most remarkable traits. may be sown broadcast or planted in drills from 26 to 30 inches apart if desired for cultivation with the plow or cultivator. From four to five pounds of seed may be used for seeding broadcast and from two to three pounds per acre if planted in drills. quickness and immensity of

growth it is without a rival, growing on good rich soils to a height of 12 to 15 inches in six or eight weeks, and in its full growth 3 to 4 feet high, producing 20 to 30 tons of feed to the acre. Sheep, cattle or swine may be turned into the field of rape when it has reached a height of 10, 12 or 15 inches, the owner using caution to limit sheep or did the sow pursue the same tactics and cattle to an hour or less of grazing for the first four or five days to prevent the When the bull finally shook her off there possibility of bloating until they are accustomed to the feed.

For early summer grazing rape and for late summer and fall feeding it may be sown in June, July and early August. It may be sown alone for a full early crop or sown with oats, in which case it makes slow growth until the oats are harvested, when it comes forward with great rapidity. It is often sown on oat, wheat or barley stubble light tooth harrow, in this way makng an abundance of fall feed. As a supplemental crop, however, it is more extensively sown in corn by scattering the seed ahead of the cultivator at time Pure bloodmeans life, health, vigor—no room for disease where the veins are filled with rich, red corpuscles.

of last cultivation. The corn shades and protects the young plant during its early growth, and within six or eight weeks lambs may be turned in for weaning.

Rape in the cornfield is a paradise for Lindsey's Improved lambs before corn harvest and makes a splendid fall feed for sheep, cattle or good plan to use about two pounds of rape seed mixed with one-half pound of common flat turnip seed for each en look like the dickens." acre. The same mixture may be profitably used in seeding with oats or on stubble land.

> Animal Food For Poultry. A number of feeding experiments at the New York station have shown almost invariably an advantage in the use of rations containing animal food over rations consisting entirely or largely of

egetable food.

A ration in which about two-fifths of the protein was supplied by animal God was much more profitably fed to chicks than another ration supplying an equal amount of protein mostly from vegetable sources, but supplemented by skimmilk curd. Pullets fed the ration containing the

large proportion of animal food attained ultimately somewhat the larger average size, but the chief advantage over those fed the contrasted ration was in the more rapid growth and earlier maturity.

With ducklings much the better re-ults accompanied the feeding of a ration in which about half the protein was supplied by animal food. The growth was over three times as rapid as under another ration in which most of the protein was of vegetable origin with enough skimmilk curd added to supply about one-fourth of the total

In the general vigor and health of the chicks there was some difference in fa-vor of the animal food ration. This difference was very pronounced with the ducklings.

RAPE CULTURE.

Progressive Farmers Are Turning.

It to Great Account.

The progress in rape culture in this country is one of the marvels of latter day husbandry. Five years ago the plant was little known and less understood. Last year millions of acres will be added to its broad green domain the present year. All progressive English and Canadian shepherds cultivate it, and the perfection of their flocks attests its great value. The English and Canadian shepherds cultivate it, and the perfection of their flocks attests its great value. The English and Canadian shepherds cultivate it, and the perfection of their flocks attests its great value. The English and Canadian shepherds cultivate it mainly for sheep, but progressive American farmers are turning plant for their cattle and swine.

To say that rape is revolutionizing the sheep industry in this country is putting the case none too strong. It adds immensely to the popular tendency to ward intensive sheep farming by yielding a vastly greater amount of succulent and healthful green food to the acrethan any other crop, thereby increasing in like ratio the sheep carrying capacity of the farm. It tides the sheep farmer over the dry hot season when the grasses are dead and the fields are brown with a wealth of green, palatable and nourishing food such as no other product of the farm can or does furnish.

It is alike valuable for silo, for soiling the flock in the cool shadows of the

the State Capital. Prize Bull Whipped by a Sow. A rather unusual battle occurred on the farm of James A. Bill, at Lyme, on Saturday last. A prize-winning Devon bull, owned by Mr. Bill had been out t pasture for some time, and in his soli-tude had come to look upon himself as lot a sow that has also won prizes for beauty at many of the fairs held in the was not until brought to a test that she

faced her assailant. When the bull next field. When almost upon her the

Middletown Penny Press.

One of life's greatest problems is this swine when the corn is harvested. In seeding the cornfield with rape it is a make too many improvements on nature

WHY DOES A Farmer Add Phosphates To His Farm.

To aid and stimulate nature. The human system is just the same as a farm; nature at times needs help, and there is nothing that equals a little goo! whiskey to tone up a run-down system, to build up strength, bring back vitality, and to make a man feel that life is worth living after all. All whiskies are good, but some are better than others. We sell only the best, and guarantee them to be absolutely pure, and free from all impurities.

Here are some of our prices:

Anchor Rye, a good whiskey for the money \$2.00 a gal. Cabinet Rye, can't be beat \$3.00 a gal Bear Creek Rye, a very fine whiskey \$4.00 a gal Gin, Rum, Kummel, Brandy \$2.00, \$2.50 and \$3.00 per gal.

We have some very fine California wines of 1892 vintage— Port, Sherry and Angelica at \$2.00 per gallon. They are of good body and of exquisite flavor.

Remember that we pay expressage on all orders of \$5.00 and over except where a transfer is necessary from one Express Company to another, when we pay expressage to point of transfer.

progressive Americans, It is "The New-York Weekly Tribune," acknowledged the country over as the

It is "The New-York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The CITIZEN" (your own favorite home paper) has entered into an alliance with "The New-York Weekly Tribune" which enables him to furnish both papers at the trifling cost of \$1.50 per year.

Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide-awake, progressive family.

Just think of it! Both of these papers for only \$1.50 a year.

Sendlall subscriptions to THE CITIZEN Butler Pa.
