A Very Good New Law. The State Board of Health is distribu ing to the school directors in the various districts of the State copies of the law passed by the Legislature last winter, which gives school directors supreme authority to act as boards of health in case of the appearance of infectious or contagious diseases in their respective eighborhoods. By this act the direc tors are empowered, not only to exclud from the public schools any person known to have been exposed to such diseases, but also to enter upon suspected premises, either by themselves or by a duly appointed agent, and to abate any nuisance they may find there. The work is made voluntary on their part, but their authority, in cases they may choose to take up the duty, appears to be absolute, subject only to approval by the county court when they appoint a health agent to work under their auspices. The law appears to be a very good one, and to heve the approval of the State Board of Health. It is founded on correct principles, for the school board in each township is the body best adapted to undertake the prompt, decisive action required on the appearance of a threatening disease. It is a body already organized, composed of men who are, or should be, familiar with the persons and circumstances of most or all ases, but also to enter upon suspected persons and circumstances of most or all the families in their districts, and its members are, or should be, men of enough intelligence to do this impor-tant work in the most effective way. By their ready action, exerted in every township on the first appearance of an epidemic, they should be able to confine the within your payment in this and quick. t within very narrow limits, and quick-y stamp it out.—Ex.

None of our lawyers attended the meeting of the State Bar Ass'n at Wilkes Barre last week. "The report of the committee on law and reform of the committee on law and reform suggested a change in the laws bearing on mechanics liens and expert testimony. There was a lively debate over the report. Judge McPherson made a plea in favor of the proposed change, as the bill allows the cross-examination of an expert witness by both parties. He held that at present the expert's testimony is sneered at and the jury laughs at it, and that for that reason a change is urgent, and that at once."

Great Year.

This has been a great year for why? Because we have been business many years and have a ways given the best value for the ways given the best value for the price paid. Everybody is learning to know that here they have the greatest variety to select from and the price is much lower than elsewhere, and besides you know just what you are getting. Ceme in and see our Buggies and Wagons. If you have catalogues from other firms bring them along. Compare our prices with theirs. If you cannot do better here don't buy. A comparison is all with theirs. If you cannot do better here don't buy. A comparison is all we ask. We will abide by your own decision. No difference what you want about a Wagon, Buggy or Har-ness or Driving Oathit, come here. We are in the business to stay, We We are in the business to stay, We own our property and it is as much our interest to please you as it is yours to be pleased.

The Saving of

Money by the use

Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour; butter and eggs.

More important still is the saving in health. Royal Baking Powder adds antidyspeptic qualities to the food.

There is no baking powder so economical in practical use. no matter how little others may cost, as the Royal

Imitation baking powders almost invariably contain alum. Alum makes the food unwholesome.
