> JOHN L. JONES. Our Centennial.

The County Commissioners have con sented to the use of the Court room for a public meeting to be held Friday evening to take the first steps towards preparing for Butler county's centennial celebration. All citizens throughout the county who can possibly attend are urged to do so. It is suggested by some that a large committee of prominent and enterprising citizens be appointed or elected at this meeting to take in hand the matter of preparation, and see

it to a successful culmination.

It has generally been conceded that the centennial should be held in 1900. Butler county was taken from Allegheny by Act of Assembly approved March 12, 1800, During March the weather is invaribly inclement and this month would hardly be suitable for a inty's jubilee.

Think it over and speak your mind a the meeting Friday evening.

IF OUR hospital had received any-thing like the aid from the State it was entitled to the present trouble would not have occurred. It was built and has mostly been maintained by private subscription. The last Legislature gave it a two years allowance of \$2500, and our Representatives had hard work to get that. At the same time other charitable and educational institutions which are rich and independent were given fortunes of from \$100,000 to \$400,

NEIGHBORHOOD NOTES.

Groyc City had a sensation last Monday, over the disappearance of Oscar L. Johnson, of Kellerville, Clarion county, on the eve of his wedding day. On the preceding Monday Johnson wrote to his intended wife, statung that he would leave home that day and would stop in Oil City to transact business. He has not been seen since.

An investigation showed that Johnson had been in Oil City on Tuesday. He left the hotel, setsnibly to take the train for Grove City. Dewey's Home-Coming.

The cruiser Olympia, with Admiral ewey on board, arrived in the lower narbor of New York, early Tuesday orning, and anchored off Tomkinsville, n Staten Island.

Alluding to his arrival two days ahead all winter. f the time he was expected, Admiral Dewey said; "I am serry that I am ahead of the schedule. The Olympia has been steaming at the uniform rate of 10 knots an hour since we left Gibralter on the 16th. Several days ago we knew that we would arrive before Thursday unless we moderated our speed or went somewhere out of our course Capt. Lamberton, Lieut. Brumby and I held a consultation. The propriety of running into Hampton Roads or some

other port in the South was spoken of but we concluded that we ought not to ouch land first anywhere except at New York. It was suggested that we cruise some distance outside New York harbor until Thursday but we knew that if we did that we would be discov ered and reported. The weather looked a little squally, and it seemed to be better to be inside the hook than outside But the consideration that really decided us to come into port was to give Capt. Lamberton a chance to clean up the ship before our voyage up the harbor. Capt. Lamberton and I are very proud of the Olympia, and we wanted enough time at our anchorage to rub

her down and make her look spick and The Admiral's first business was to send an officer ashore with telegrams for the Navy Department, Mayor Van Wyck and General Butterfield, announcing the arrival, and the whole day was spent in receiving visitors, and fix-

ing up the ship. The great naval parade will take place tomorrow, (Friday). The order of the land parade will be

Our store is filled with an immense line of Fall and Winter hoes. Never before have we been able to offer our trade so large a ariety and so many different styles as we show this season.

You can always depend on us for low price. We are always on the lookout for Bargains, and our ready cash often enables us to give our customers some very good things, and that accounts for our arge trade during July and August.
