ness or in social life. A man hac that should be sentenced to live for thirty days in a room where all the walls were mirrors. He would then get sick of his own unwhole-someness, just as other people do. Such a man should have an honest protrait that did not flatter him always before his eyes. It only costs a trifle for a man to dress well, and it costs still less for him to keep clean, wholesome and healthy in a physical way. When a man's stomach is right and his digestion is right, his blood will be pure and rich and he will be wholesome and healthy physically. Dr. Pierce's Golden Medical Discovery makes a man right in every way by making his stomach, liver and digestion right. It gives him a hearty appetite and facilitates the assimilation of the life-giving elements of the food. It drives out all impurities from the blood. It drives out all impurities from the blood. It does not build flabby flesh or make corpulent people more corpulent. Honest druggists don't advise substitutes.

"I was tired all the time," writes J. Edward barders of the residence of Go. E. Lashel, 127 No. 10th

IN HIS STEPS.

misunderstood, and the whole thing would end in his disgrace and the loss of his position. Surely, it was none of his business. He could easily get the papers back to the freight department

and no one be the wiser. Let the iniquity go on. Let the law be defied. What was it to him? He would work out his plans

for bettering the conditions just about him. What more could a man do in this railroad business, where there was

so much going on anyway that made it impossible to live by the Christian standard? But what would Jesus do if

he knew the facts? That was the question that confronted Alexander Power

as the day were into evening.

The lights in the office had been turned on. The whir of the great en

gine and the crash of the planer in the big shop continued until 6 o'clock.

Then the whistle blew, the engine slowed down, and the men dropped

"That burglar is highly educated. Did you notice how cultivated his "Yes, I did. He was even so particu lar as to speak of his jimmy as 'my able assistant James.' "-Tit-Bits.

Hook's Lordly Tip. It required such a man as Theodore Hook to cope successfully with the rapacity of the gentlemen of the hall, in contradistinction to the road, and o one occasion, at all events, he proved himself equal to the task. It is related that once when dining ont he, before the entertainment came off, provided himself with several bright farthings from the mint and that when proceeding after the festivities to his carriage he discovered several servants, including the cook awaiting him in the hall, he forthwith slipped a coin into the hand of the latter. The man glanced at it, noticed the size and bowed low in thanks, under the impression that he was a sovereign richer while Theodore, dispensing largesse of a like nature to the other servants, went on his way rejoicing, nor did he cease doing so when, as he stepped into his carriage, one of the footmen, who had discovered the real value of the pourboire, ran out, saying, "Sir, I think you have made a mistake!" "Not at all, my good man," replied the humorist, with a gracious wave of the hand. "I never give less. Coach-

man, drive on. Then He Was Mad. A Scotch university professor, irritat-to find that his students had got into the habit of placing their hats and ines on his desk instead of in the ticle of the kind placed there would destroyed. Some days later the profess-or was called for a moment from the classroom. A student slipped into his private room and emerged with the professor's hat, which he placed con-

spicuously on the desk, while hes fel lows grinned and trembled. The professor, on returning, saw the hat, thought some rashly obstinate student had been delivered into his hands, and, taking out his knife, he cut the offending article to pieces, while vainly attempting to conceal the smile of triumph that played about his counter. nance. He was in a very bad temper

Likes to Be Kicked. Hall Caine confesses that he likes to be kicked, as long as the thing is done n public and makes him conspicuo Mail: "Even the silliest personal refer ence I ever see, however inspired by paltry feelings, seems to me by implication a tribute and compliment, being a gone over with the weeder after the recognition of the fact that I am a factor worth counting with and an adversary worth fighting. And when the most false, the most mean and the most per day. It is light work on the horses belittling of the kind has ceased to appear I shall know that I am no longer

of the least account." A Cold Night In China One of the facts that we ineffaceably cut into my memory during my first winter in Newchwang was the finding on one morning about New Year's time 85 masses of ice, each mass having been living man at 10 o'clock the preced-

The thermometer was a good bit be low zero (F.). The men had just left the opium dens, where they had been enoying themselves. The keen air sent them to sleep, and they never wakened. -North China Herald.

City Boy's Idea. A Gallatin county farmer hired boy from the city to assist him through the summer. The farmer told the kid to go out to the barn lot and salt the calf. The kid took a quart of salt and industriously rubbed it into the calf's hide. The colts got after the calf for the salt and had about all the hai licked off the animal before its condition was discovered. - Montgomer (Ills.) News.

Knew What Poverty Meant. 'You have never known the pangs of overty!" he exclaimed bitterly. The heiress' eyes softened, though liquid to begin with.
"Indeed I have," said she warmly.
"I went to a bargain sale where no one knew me and found I had left my purs at home."--Indianapolis Journal.

Their Limitations. "Some of those postoffice people are very clever. They can read illegible writing and deliver letters when the ddress is worse than a Chinese puzzle "Yes, but they can't help out the man who forgets to mail his wife's let ters."-Brooklyn Life. The Hope of the Future.

CRIMSON CLOVER

It Thrives on Thin Soil-Regions In Crimson clover, also known as scarlet clover, German clover, Italian disturbed because it was such a great organization? What would Jesus do? Then there was his family. Of course clover and carnation clover, is an annual plant native to southern Europe and has long been cultivated as a if he took any steps to inform the com-mission it would mean the loss of his position. His wife and daughters had forage crop in the warmer portions of position. His wife and daughters had always enjoyed luxury and a good place in society. If he came out against this lawlessness as a wife out world. awlessness as a witness, it would drag heads. The root system is well de-

veloped and penetrates deeply into the soil, and the plant is a vigorous grower. The seed is larger than that of red yellow when fresh, paler in the white flowered variety, and has a highly pol-ished surface. The plants stool freely, many stems arising from a single root. Crimson clover will not stand severe freezing, although it is one of the so called "winter annuals" and under favorable conditions makes much of its growth during the cool, moist weather of fall, winter and early spring. Its strong growing roots enable it to secure nourishment in many soils so poor and thin that red clover would fail entirely. While requiring a warm cl mate, it will not endure severe drought. It thrives best on rich, rather sandy loam, but when the conditions of moisture and temperature are favorable it gives good results on light, sandy soils as well as on clays, if they are not too stiff and cold.

Crimson clover has come into promi nence in this country within compara-tively recent years. It can hardly be egarded as a successful crop outside of the region from New Jersey west to the Alleghany mountains and south to eastern Tennessee and Texas. Good crops are often obtained in other sections, but cannot be depended upon year after year. In the middle and south Atlantic states this clover is one of the best crops that can be grown for forage and soil renovation. It has giv en good results in many portions of the gulf states, but many failures are also reported. In the colder sections of the country this clover is sometimes successfully grown as a summer crop, bu it usually winter kills badly when sown in the autumn. At the experi ment stations in Rhode Island, New York, Ohio, Michigan, Illinois, South Dakota, Nebraska and other states in the north and west the general results of tests show that it is too tender for the climate and is less valuable than red clover. From results recently obtained at the Alabama experiment station it seems very likely that in many cases, especially in the south, failured with the crop are to be attributed to the absence from the soil of the tuber le forming organisms which are neces sary for the proper appropriation of nitrogen by the plant. These organ-isms being supplied to the soil, excel-lent crops were obtained where with ostologist S. W. Williams in circula

ment of agriculture is pursuing. Wholesale Weeding. A correspondent sends The Rural New Yorker a photo showing how they eders in British Columbia. He says the wheat in this photo was fou

WEEDING ON A BIG SCALE. six inches high and had been twi tools at work until the wheat is

The amount of crimson clover seed per acre recommended by Dr. Pieters, the seed expert of the department agriculture, is about 15 to 20 pounds. A sample that will give 90 per cent of strong spouts will go further than one germinating less than 50 per cent. Seed in the husk is sometimes used and with good results in dry weather. When this is used, more seed is need
