LOCAL AND GENERAL,

'Precisely 12 o'clock last night The 18th century took its flight,
Full many a calculating head
Has racked its brains: its ink has shed
To prove by metaphysics fine
A hundred means but ninety-nine.
While at their wisdom others won-

dered, But took one more to make a hundred. Strange at the 18th century's close
While light in beams effulgent glows,
When bright illumination's ray
Has chased the darkness far away,
Heads filled with mathematics lore
Dispute if two and two make four. Collect your light a few more ages.

Perhaps as swells the vast amount

A century hence you'll learn to count.
