It is a positive cure for almost all disorders of these organs, and cures also such diseases of the heart, blood, liver and other organs, as have their cause in a weak or diseased condition of the A great many loads of logs and bolts are drawn past our house every day in the winter time. It is interesting to Scratch the old pasture over with a sharp toothed harrow or score it with loads. Some, with a good team and a the disk harrow and sow from one to long distance to haul, will have on a couple of small logs, while a neighbor bushel of that and one of redtop and with no better team will pile on 10 or 12 logs as large. What a lot of time is wasted here! Frequently large loadkeep the stock off until they have made a fair growth and the wild grasses have begun to grow, and the next year they can be fed much earlier, having One of the handlest things we have on our farm is a large flat rack, 71/2 dressing of the pasture so treated with feet wide and 16 feet long, with a tight, smooth floor laid over it. It looks like a flat car while empty, and the old fashioned rack looks like a toy beside it. Large loads of hay pay well. They save sev-loads of hay pay well. They save several extra drives to and from the field. each of redtop and blue grass were Besides, it does not take any longer to clean up the bottom of the load from clean up the bottom of the load from a large one than it does from a small one. So time is saved in two ways here. Saving time means lots of money sometimes in drawing hay. It may add nothing more but five nounds or more of white clover.

Some may consider the above to

mean the saving of large quantities from being spoiled by getting wet. I have often wished for an extra day to have often wished for an extra finish up the hay. Had I used large loads I might have saved a good deal we believe in heavy seeding for both, and those who think it too much or too from getting wet.
