LOCAL AND GENERAL.

I envy not the nabob's gold,
I scorn the monarch's might;
I covet not the right to bold
A place in fashion's sight.
Yet Satan bids me join his clan,
One pitfall, and I slip,
I envy heartily the man
Who hasn't got the grip.

—4—5.

—Spring fever.

—Clucking hens.

—Our streets need cleaning.

—Our "Sugar Snow" didn't last long.

—The bicycle has a right to keep to the right, like other vehicles.

—The McDowell laundry now has an agency in Keene's cigar store.

—Girls who want a "man" can buy four for-a-cent at the stationary stores.

—The P. & W. is widening its road bed in the northeastern part of the county.

—The Easter hat is yet in its nebulous state, but it has all next week to come to a head.

—The Deshon Opera Co. played to good houses in Butler, all last week, and will have better ones when they return.

—Geo. W. Strickland has purchased Geo. Biehl's interest in the Palace Club; while L. E. Shira will continue to handle the stationery and cigars.

—At the meeting of the School Board, Monday, it was decided to purchase the Riddle and McCrea lots, at corner of Locust and First Sts., Institute Hill.

—The "Central" is rapidly becoming the favorite of the commercial travelers when in Butler. Its popularity is attested by its crowded dining room, every day.

—This is the last week (for this year) the County Auditors' Report will appear in our columns, and all who have not yet looked over the figures should do so.

—If subscribers changing their addresses will kindly remember to send us their old as well as there new address, they confer a favor to us and save delay and confusion.

—Local railroad employees say there are infallible indications that the B. & O. is to obtain complete control of the P. & W., and express general satisfaction over the looked for change.

—The Berwind-White coal mining company, which operates in Indiana, Jefferson, Cambria and Somerset counties and employs 10,000 men, has increased their wages 20 per cent.

—The miners of the Mercer district, which includes the Hilliard valley, struck for higher wages, Monday, but Messrs Mizener and Turner granted their demands and they again went to work.

—Wm. C. Currie, formerly baker for John A. Richey, has opened a wholesale bakery at 370 Centre Ave., where patrons will always find a choice assortment of fine bread, pies, cakes and pastries at lowest prices.

—All the West Penn employees, who could do so, attended the funeral of Conductor Pillow's son, at Cheswick, last Saturday. The young man was Mr. Pillow's only child, and the case was a very sad one.

—A special train ran from Los Angeles to Chicago, a distance of 2,265 miles in 58¼ hours, last week, and came in to Pittsburg in 76 hours in all. A steady gait of 40 miles an hour soon puts a train across the continent.

—Plate Glass workmen say that while the local factory was laying only twelve tables of glass each twenty-four hours where other factories lay thirteen, yet the tables here each hold nearly 100 more feet than those of other factories.

—The regiment which Ira Murphy, Harry Core and Will Faber are in is doing active service in the Philippines. A recent letter from Murphy states that a sharpshooter concealed in a tree tried a shot at him lately and the bullet whizzed past very close to his head.

—County Supt. Painter has completed his first annual visit to the county schools. From September 1st until March 28th he gave his whole time to this work and during that period called at every school house in Butler county. This being new in the history of this county the Supt. justly feels proud of this part of his work.

—Butler's schools close the last of May, making only eight more weeks till the summer vacation. The High School graduating class numbers thirty-eight—of whom eleven are boys. Their commencement essays, etc. have already been submitted to the faculty for inspection.

—A feminine fakir is victimizing dress makers in neighboring counties by calling on them and announcing that she is deputy factory inspector, and that she is collecting a $3 tax which has recently been imposed by the State. The game has been successfully worked in some sections, and the woman is still at large and may come this way.—Ex.

—A company of capitalists from Bennett, foremost among whom is Joseph Lea, chief engineer of the A. V. Railroad, have leased the coal right on the J. W. Titley, Eberhart and Frederick heirs farms, on the edge of Chicora and will develop it, work having already begun. The coal under this land is of an excellent quality, and will find a ready market. This industry will employ from 50 to 75 men from the start.

—The grinders started to work in the Plate Glass works Monday morning and the rest of the factory was in operation next day, but not enough layers are at work to lay the number of tables of glass usual before the strike. Many of the men left Butler to seek work in other factories. While the factory officials claim that the extra table which caused the strike, only have made the local workmen do the same work for the same money as the workmen in other factories do, the men say they were over worked without the extra table. To an outsider, it hardly seems fair for a concern which is paying its officials nice fat salaries and whose stock has increased in value 200 percent in two years, to virtually cut the laborer's wages by giving them extra work.

Humanity's a foolish thing
In spite of constant preaching,
It's always blindly blundering
From texts of wisdom's teaching.

Pianos Tuned, Voiced and Regulated.

Now is the time to have your Piano looked after. You want a reliable man to do the work, not one that is here today and gone tomorrow. "Tramp Tuners" generally half do their work if they know how to do it at all. A great many pianos get the blame when the tuner (?) is at fault. I am here to stay and guarantee all work.
