LOCAL AND GENERAL.

Over the mountains and over the hills, Over the rivers, the streams and the hills, Over the valleys that swing, Over the forest and over the wood, Over the trees that aching to bind, Blows the sweet breath of Spring.

—Amy Kemper's new burlesque show is a beauty.

—The Filipino war is not exactly all over the island.

—Spring plowing is disturbing the country just now.

—Petrolia public schools closed last Thursday after a very satisfactory term.

—A New Jersey town tendered a public banquet to a man who secured a divorce.

—The next reunion of the Boggs family will be at Evans City on Thursday, August 16.

—You may not see a single reason for watching a base ball bulletin, while others may see a score.

—If we have a row with him, the Sultan will probably fight with us at the small end of the Golden Horn.

—The show-windmills of our stores are just beautiful at present, and then there are some counter attractions.

—There is a camp of bumps up the creek, and as the officers suspect them of house breaking they are running them in.

—Very little news is escaping from South Africa at present, and it is not wise to take a bare rumor for the naked truth.

—Fine feathers may make fine birds, but in one of the western states they are going to make the wearing of them finable.

—The tremendous thunder-storm to visit the Butler last Sunday night did some damage and caused a slight fire in Connoquessing.

—The assessors' outfits for the May registration of voters and school children, are in the Commissioners' office ready for the assessors.

—Geo. W. Whitehill, the plumber, will open in his handsome new building next Tuesday, where he will make a fine display of plumbing goods. See adv.

—Mrs. J. E. Zimmerman has "sued" the room formerly occupied by D. A. Heck, and expects to open up the millinery department, at least, by Saturday.

—A big grasser has been struck at Garrets run, along the line of the electric road between Kittanning and Ford City, and lots jammed from four to five hundred per cent.

—Mrs. James Nulton of near Du Bois has confessed that her husband killed a man during a quarrel in their house, and then burned the house. He left for parts unknown.

—The pickle people are contracting for all the pickles which local farmers agree to raise, paying 45 cents a bushel for pickles from one to three and half inches long and 75 cents a bushel for those from three and a half to five inches long.

—The building adjoining the Balph drug store, now being torn down, is, or was a part of the original residence of H. C. DeWolf, one of the earliest physicians of Butler. It was built about 1850 and one-half of it was burned by fire ten years ago by Dr. Balph. The other half now also gives place to a more modern structure. The house of Richard Hughes, Jr. the barber, occupies the ground where stood the office and shop of Dr. DeWolf.

—The coke drawers in the foundry yards of the H. C. Frick Coke company, three miles west of Connoquessing, were witnesses to a most tragic scene Monday. An unknown man jumped into a coke oven that had burned until it had reached the white heat. Workmen in the yards saw he jumped feet first through the tunnel head of the oven. No one had time to recognize his features and one minute afterward, when the oven door was smashed in and an attempt made to rescue the body, all the iron work withdrew was a charred stump of flesh about three feet long.

—The Executive Committee of the Centennial will hold another meeting tomorrow, Friday evening, and consider the matter of preparing the program.

—The Amusement Committee has had several meetings and the result of its deliberations will appear in the program as soon as completed.

—Work on the tent on east end of Diamond will soon commence.

—About \$3000 are now anted in this place to the Centennial fund and it is expected other parts of the county will add considerable to this.

—The principal business of the Executive Committee meeting on Friday evening will be in determining the different exercises to take place on the three different days and nights of the Centennial. The meeting should be a full one.

—The Chicago Tailors' Association, is a union of practical tailors, asking only a fair wage for their labor. They are all artists in their line—it is impossible for them to make other than high-grade garments. Even the lowest \$9.33 suit (express prepaid) cannot be so expertly made at anywhere near our prices. It will pay you to call on the Salesman or send him postal and he will come to you with the finest line of cloths ever shown.

I. H. PISOR, Hooker, Pa.

Go Carts! Go Carts! Amy & Brown have their third large invoice now enroute and the season only begins. Why do we sell them? Right prices, artistic designs and first class workmanship answers it. If we don't just have the design in stock you want we will get it for you "awful" quick. A large selection always on hand in stock from Music scholars wanted at 128 West Wayne St.
