and wasting vitality make their presence known through headaches, dizziness, inability to sleep, less of appetite and a general run-down condition of the system. These signs are sometimes accompanied by neuralgia, hysteria, rheumatism or nervous prostration in some other form. ralgia, hysteria, rheumatism or nervous prostration in some other form. To remove these troubles, cure the nerves. They need feeding, strengthening and building up, and nothing will do this so quickly and so surely as Dr. Miles' Nervine. This truly remarkable medicine is gaining hundreds of new friends every day. Here is a surveyor from Decatur, Ind., Mr. G. E. McKean, who writes:

"A chronic stomach trouble, which my physician was unable to overcome, so wore on my nervous system that I broke down with nervous prostration. I could not sleep day or night except in fitful naps; could scarcely eat any kind of food and wasted away to a mere shadow. After spending over \$500.00 in a vain search for relief, I was prevailed upon to try Dr. Miles' Nervine. Relief came immediately. I took sit bottles and today am a well man."

Dr. Miles' Nervine is seld at all druggists on a positive guarantee.

THE CITIZEN.

IMPERTINENT SIMIANS.

On the occasion of our visit to the monkey temple at Banares we had provided ourselves with popcorn and other goodies which we expected to offer their holinesses. But the monkeys did not give us a chance to do that. They snatched the dainties from our hands, and when our supplies were exhausted they amused themselves by mimicking us.

brought into a dense state by fusion. Picric acid is a bright yellow substance freely used in peaceful industries for dyeing purposes. It is obtained by the action of nitric acid on phenol or carbolic acid. It burns very violently, and, owing to the tremendous blast produced by the explosion, the destructive effect of a bursting shell filled with it is some 11 times greater than that of a shell filled with

that the monkeys were very fond of scarfs and that they captured a great ciple that "misery loves company" he seemed to think his item of news ought to console me; but, although the monkeyshines" continued as long as re stopped in the temple "compound," no longer found them quite so lt

CUTTLEFISH INK. The Peculiar Liquid Which This Cu

rious Animal Ejects. The cuttlefish are caught in grea are used as a bait for the conger cel, for which this part of the world is celebrated. The cuttlefish possesses no real mouth, but has a long, cylindrical watcher with which it adheres firmly to he bait. The method of capturing the ish is as follows: A long line from almost the only bait the cuttlefish will ake) is let down into the sea and allowed to stop there for about half an also being plifered from he could silent no longer. Lamb reveled in the cuttlefish are found hanging by means and the cuttlefish are found hanging by means are found hangin f their suckers to the bait.
The moment that they leave the wa-

ers they eject with considerable force a great quantity of deep, black, viscou substance which is about the consiste cy of treacle, and the stain made by it upon the clothes of the fishermen is ermanent if it happens to fall upon I had a conversation with one ma who has several times received a full charge in his face, and he assured me

that beyond the smell, which is most nauseous, he felt no inconvenience at all, no smarting or pain in his eyes and If any of the liquid gets upon the nets, it rots them beyond repair unless it is washed off immediately. An other curious fact is that this fluid will not injure cloth in the slightest legree beyond making a permane stain. One man told me that he had used a jersey for several years which had been squirted all over at differen except for the cloth being stained it was as good as ever. When this "ink" is ejected under wa

ter, it hangs in a sort of cloud and does not spread.—London Leader. Browning and the Cook. To Robert Browning a man was a man, whother he was served by many people or was the servant of others. On one occasion his son Barrett had

hired a room in a neighboring house to exhibit his pictures, and in the tem-porary absence of the artist Mr. Browning was doing the honors to a roomful of fashionable friends. He vas standing near the door when an nannounced visitor made her appear with her, greeting her as he did the "Oh. I beg pardon!" she exclaimed "But, please, sir, I'm the cook. Mr.

turned Mr. Browning, with ready co tesy. "Take my arm and I will se you round."—New York Press. Discovered a New Answer.

In about three minutes at least 40 months by pieces of the shell, but by the keys had bit a piece of my precious blow of the suddenly compressed air.

> mitted to Charles Lamb by a friend just before the poet was to meet Lamb at dinner. Lamb found the verses to be feeble echoes of other poets, and when the author arrived he was seen to be as empty as his verses. This awakened Lamb's spirit of mischie

wrote when I was young," and then he quoted a line or two which he recol-lected from the poet's book, to the lat ter's amazement and indignation. Lamb was diverted immensely, but kept perfeetly serious and quoted more lines in nection with another remark, begging the company to remember how young he was when he composed them.

Lamb capped all by introducing th first lines of "Paradise Lost man's first disobedience," etc.) as als written by hamself, which brought th written by himself, which raises the books baited with portions of pilchards said he had sai by and allowed his ow said he had sat by and allowed his ov "little verses" to be appropriated w ing this story. Rev. David Macrae

strong wind was blowing right from the lake. The bodily condition was as near perfect as could be, and yet in less than five minutes there was every evi-dence of having caught cold. The severe influenza continued until, on walk ing away, in less than 500 feet it disappeared as if by magic.

It is very certain that the temperature had nothing to do with this not

by due to the abundant ozone in the air. By inquiry it was tearned that hundreds of residents who had lived upon the immediate edge of the lake had been obliged to move back three or four miles in order to relieve then selves from such experiences.

Physicians readily admit that it is

not always possible to say when one "catches" cold. It certainly cannot always be because of undue exposure or change in temperature, but probably also to changes in the electric condi-tion of the air. Facts of this kind should lead to the extremest caution in studying any supposed relation be-tween the weather and health.—Popu-

Two Eating Stories. At Somersley we used constantly to meet Tom Price, a great friend of the Barrington family, a fine rider and very greedy. One day, eating a good

"Yes," said a neighbor, "such a dinner as this without money and withgreedy man who, coming down stairs n the morning before breakfast, said, Food has not passed my lips since last night, and tomorrow will be the third day."-"Sir Algernon West's Recollections."

Spreading Happiness.
"I have but one rule that I follow abolutely in this life, and that is to make "Well," he replied, "you ought to be gratified then at what I heard a young adv say the other day."

"What was that?" "She said that whenever she saw you dancing she had to laugh."—Chicago
