Centennial Notes.

As will be seen elsewhere the program for the Centennial has been completed. The exercises for the whole three days, speakers, etc., have been arranged for. But some changes will be found necessary.

It was found impossible by the Centennial committees to send written printed invitations to all old Butler county people. They seemed to be scattered over the Centennial park. It was hoped therefore that all, everywhere, who see or hear of our Centennial in any way, would be glad to call, and without any formal invitation.

All the old Butler county men, chosen for addresses as appear upon the program will please drop a line as to their coming for certain or not, so that it cannot come their places can be filled in time. It is hoped however that all named will be at the Centennial.

Every other address on the program is of some interest to the people of the different towns and townships are busy collecting them for exhibit.

Some special committees will likely have to be appointed especially one of ladies and one set as to vocal music, singing, concerts, etc., by young men and women.

All G. A. R., military, civic, school and other organizations intending to participate in the Centennial parade, are requested to communicate with Col. Reiber, chairman of the Parade Committee at once and state number of persons they will have in line.

Sealed proposals will be received by Chairman McCleary for the erection of a building of a Colonial Arch on Main St., up to May 18.

Evans City's Bad Fire.

At six o'clock Saturday morning fire was discovered in the old broom factory building at Evans City owned by George Lutz and occupied by the Specialty Manufacturing company.

The building was a mass of flames in a few minutes and although the Irwin Hose Co. soon hurried to the scene, the building, it was thought, was totally destroyed.

The firemen did excellent work in preventing the flames from reaching the casting hall of the Specialty works but a few feet away.

Directly across the P. W. tracks and in the path of the wind from the fire is Edward Damback's planing mill and lumber yards. These also were saved.

The fire started in the second story and these were destroyed. He carried \$1,000 insurance.

Mr. Lutz has just stored a half carload of bugies in the second story and these were all destroyed. He had 1,200 insurance on the building and stock.
