The questions which citizens, who, like Mr. Carnegie, never voted any other than the Republican ticket, ar called upon to consider at the present moment is the departure of the official leaders of their party from the policy of the Republic in the purchase and attempted conquest of the Phillippines, with the intention of holding the country as a conquered territory and not a sufficient to cause them to refrain from voting for Mr. McKinley or even to vote against him? This question can answered only after a consideration alternative and the consequence and in order to do so the platforms o the two parties have to be carefull

In its pronouncements upon question arising out of the results of the war, Mr. Carnegie finds the Republican platform open, to no serious objection, except that cannot consent to the claim that through the payment of \$20,000,000 w

A HOPE OF IMPROVEMENT.

The important point, in his judgmen is that the platform pledges the Republi can party to give Cuba independent and self government, and he finds i that pledge reason for entertaining th hope, if not the belief, that the Republi party will eventually deal spirit with the habitants of the Philippines, since there

s no reason why the one people should be treated in a different way from the other. But it is not enough to consider the platform only. Much depends upon the man who is to steer the ship of state under its provisions. Mr. Carnegie pays a high tribute t Mr. McKinley as an individual, but ex-

MCKINLEY RIGHT WHEN UNHAMPER

He was sound upon the question war; he was right in regard to the Phillippines, as is proved by his instructions to the Peace Commissioners; he was right in regard to Puerto Rico, but he allowed himself to be overborne by the party leaders. When he was not ered or constrained he has shown the highest statesmanship, as in his estion, when Congress and the leaders are scattered. There is thus ampl ground for hope that if re-elected Mr. McKinley may shape events in such a

way as to be able to grant to the Philipas to the Cubans, free independent government make himself the father not the oppressor, of the first Republic of the Orient.

Turning to the Democratic platform Mr. Carnegie finds that it is truly American in its opposition to imperial ism and to militiarism. He finds right upon Puerto Rico; also in regard to expansion also in condemning the

Hay-Pauncefote treaty; also in regard to the Boers; also in regard to the speedy repeal of war taxes. But when this has be en said all has been said that can be said in favor of the Democratic ticket

The most serious objection to it is not the proposed lowering of the standard of value, serious though that be. It lies in the insidious attacks upon the Suoreme Court, which strike at the oundations of human society. It saps the roots of peace and order, and, if ccessful, substitutes license for law, and throws us back to barbarism, even to savagery. How to Cure Onions Red and yellow onions should b pulled when the tops begin to lap and are still slightly green, so they lie readily, when they are made into roun piles. White onions must be pulled green. Part of the crop must be sacrificed in order to secure that color which is necessary to bring the first price. Red and yellow varieties can be safely left in these round piles until the middle of September, when they should be well cured. They are then opened for a day or two before carting to slatted bins in the barn. Plenty of air should be given. Many of our largest growers have onion barns, where they keep a fire in winter, but we have banked our onions well on approach of severe weather and have never had any trouble in keeping them for the spring market-in fact, we think that they are less liable to spr than where a fire is kept. We cart ou onions as wanted in the winter to pared for market, writes a Connecticut grower to Rural New Yorker.
