Representative Showalter was quoted as follows; There never was a better and more comprehensive message transmitted to Congress. The President has treated most thoroughly of the Philippine islands and presents the situation in China clearly and concisely," and Representative John Dalzell, of Pittshurge. "The message of the President in China clearly and concisely," and Representative John Dalzell, of Pittsburg—"The message of the President is clear, concise and to the point. It goes into the Philippine question exhaustively and treats of Cuba and Porto Rico to the fullest extent. I am sure the message is just what the Republicans expected, and it will receive the hearty indorsement of every one of them, while at the same time acting as a guide for Congress in legislation to be enacted in the future. The President also deals with our merchant marine and makes recommendations for its improvement. That is a part of the Republican platform. I indorse most heartily every word in the message.

The Tax on Medicines.

The manufacturers and retail dealers in drugs and proprietary medicines are preparing a strong representation to Congress for including in the reduction of the war taxes the special stamp tax of the war taxes the special stamp tax on the articles made and dealt in by this trade. They point out cogently that while they, as citizens and business men, pay their share of the taxation by stamps on checks, agreements and other documents, together with the general customs and excise taxes, this particular stamp tax is levied on a special trade.

That trade, too, is the one which serves the need of the people in illness. Whatever dispute there may be as to who pays the tax in the first instance there can be no doubt that the ultimate burden of a tax on medicines falls on those who need the medicines. This especial tax amounts to \$4,000,000 or \$5,000,000 per year. There is no reason especial tax amounts to \$4,000,000 or \$5,000,000 or year. There is no reason why it should not be repealed, together with the other taxes on business transactions, accepted for the past two years solely to support the war that was ended two years ago, and it is gratifying to note these are the yery items recommended for abolition by the Ways and Means Committee.—Dispatch.

Railroad Notes.

A large number of Italians are widen-ing the 'Bessie" cut on the Love and Maizland farms in Clinton twp.

The Bessie has 60 men and a steam shovel employed at Branchton putting in new sidings. A yardmaster is now in charge at that place and it is reported that the company will spend \$15,000 in improvements. It is said a round house is to be built and Branchton is to be made a division headquarters.

The Carnegie interests plan to operate directly the Pittsburg, Bessemer & Lake Erie railroad, which since its organization has been controlled by these interests. The plan is to lease the road, possibly for a period of 999 years, operate it under new charters, assume all the funded debt of the present corporation in the lease and guarantee for the common stockholders a dividend of 3 percent. The Bessemer has never paid a dividend on its common stock and the proposition of the Carnegie company, which under its New Jersey omnibus charter is the investor concern of all the Carnegie interests, has actuated a flurry in stock exchange circles through the report that it would guarantee dividends on the common stock.

A New Enterprise on Novel Lines.

Having made arrangements with New York, Philadelphia, Boston, and Baltimore manufacturers to become an outlet for their various lines in Men's and Boys' Clothing, Furnishing Goods, Hats and Piece Goods, learning that Butler was a most desirable and progressive city and its people up-to-date, we have leased the store-room, 104 South Main Street, in the Berg Bank building, where we will carry a first-class line of Men's, Boys' and Children's Clothing, Furnishing Goods, Hats and Piece Goods.

The nevel lines on which we will do business will enable the people of Butler and vicinity to secure their merchandise at almost wholesale prices. This will be the first introduction to this city of a store of this kind and one where the people will find to their interest to visit daily. Volume of business is what we are after and only popular prices will prevail.
