DYSPEPSIA AND DEGENERACY.

DYSPEPSIA AND DEGENERACY. There is a certain physical degeneracy which results from dyspepsia. If the body is not nourished it grows weak, and as the body is only a general name for the sum of its organs and members, to speak of the body growing weak means that the heart is growing weak, the lungs are growing weak, and that the liver and kidneys and other organs are involved in the same "weakness." When diseases of the stomach and its allied organs are cured these dependent weaknesses are cured also. "For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord. Esq., of 13 Eastern Ave. Dollar, \$1.25 and \$1.50 fine Plaids, mostly skirting styles, Odd lot 75c and Dollar all Splendid styles fleeced Wrapper Goods or Flannelettes
