On Saturday the English railway authorities put men to work building a siding near the station. The Russians drove them off for trespassing on their new concessions. paring for battle. Upon seeing this the British desisted from their purpose of bringing back laborers to work by force. General Barlow. commanding the English, and General Wognck, commander of the Russian force had a conference, and both sides agreed not to break the peace for 24 hours. Information regarding the situation was cabled to London and St. Petersbarg. Intense anxiety as to the outcome prevails in London. The Russians are entrenching themselves in their concession.

Count Waldsrsee arrived in Tien Tsin Tuesday and had long and separate conversations with the Russians and English commanding generals. He verbally renewed, the propositions which had been made by telegraph, and which the Russians had declined to entertain. General Wognck declined to discuss the question of ownership until the British had withdrawn from the ground claimed by Russia and occupied by his forces. General Campbell stated that under his instructions he could not withdraw from the position.

The deadlock, therefore, continues. Count you Waldersee was visibly de-

Harrison's Last Days.

The last intelligent words spoken b Gen. Harrison were to his wife Tuesday afternoon, shortly before he lapsed into total unconsciousness. At that tim Mrs. Harrison asked him if he recog nized her, and he replied that he did. At noon of the same day he recognized his aunt, Mrs. Newcomer, feebly greet ing her as "Aunty" when she came t his bedside.

War in China.

At Tien-Tsin, China, the seaport of Pekin, last week, the British and Russiang were disputing over the limits of railway property in the Russian concession, and the guards of the two nations were in close proximity to each other. The British had been strongly reinforced and trouble was imminent. The British had been strongly reinforced and trouble was imminent. The British were acting under orders to lay a siding, by force, if necessary, and this the Russians were opposing.

A disputch received in London from Tien-Tsin by Reuter's Telegram Company, dated from that city Friday, said.

"The Russians are now entrenching in the disputed territory. A company of the Hong Kong regiment, with fixed bayonets, is in front, while two compannees of the Madras Pioneers, under the command of Major Johnston, are held in reserve. Both the Russians and the British are awaiting instructions from their Governments."

Judge F. M. Warmeastle, who has been ill at an Oakland Sanitarium for some time, passed away at that institution yesterday, at about 5 p. m. The deceased was a prominent figure in Contra Costa county in the earlier days. He was first County Judge of this county and was District Attorney for two years, and also served the county as Assemblyman and State Senator in the then Senatorial district, comprising San Joaquin and Contra Costa counties. He was born November 19, 1815, and was therefore 86 years of age at his decease. His birth place was the town of Butler, Pennsylvania. He was a First Lieutenant of the Missouri Mounted Volunteers in 1847 and saw service among the Indians. The deceased was a man of marked ability, instanced by the many important offices which he filled. Of late years he has been a resident of Shasta county, California.

The nephew of the deceased, Mr. Connors, has arranged with Coroner Curry for the interment of the remains in the Alhambra cemetery, at Martinez."

E. MILLER, THE SHOE MAN OF BUTLER

THE DIFFERENCE BETWEEN WISHING AND WORKING.

It is popularly believed that warts can be wished away. But the farmer who sat down and tried to clear his field by wishing the weeds away would soon find his crops gone. It takes working to get rid of weeds, and the man with the hoe must put in many a long day before he can take a well earned rest.

It is a singular fact that a great many people treat certain forms of disease as warts are said to be treated—by wishing. This is especially so in the ease of

covery. It cures obstinate and deep-seated coughs, bronchitis, bleeding of the lungs and other diseases of the organs of respiration, which if neglected or unskilfully treated find a fatal ter-mination in consumption. In hundreds of cases a cure has been effected by the use of "Golden Medical Discovery" after all other means and medicines had failed to benefit and doctors had said, "There is no hope." "There is no hope." DON'T GIVE UP HOPE. Let every one who suffers from respiratory and pulmonary diseases cherish hope until Dr. Pierce's Golden Medical Discovery has been given a fair and faithful trial. It always helps. It almost always cures. Ninety-eight per cent. of those who use "Golden Medical Discovery" find in it a perfect and permanent cure. Even the two per cent. acknowledge benefit and help from the use of the medicine. use of the medicine.

"I want to say a word in favor of your grand medicine," writes Mrs. Priscilla Smail, of Leechburg, Armstrong County, Pa. "About three years ago I was taken with a bad cough; had night-sweats; would take coughing spells and have to sit up in bed at night for an hour at a time. When I would walk up hill I could hardly breathe; would get all stopped up in my throat. I did not try any doctor but I saw the advertisement of Dr. Pierce's Golden Medical Discovery and decided to try it. I took three bottles which cured me. Whenever people tell me they are sick I say to them, 'Why don't you get Dr. Pierce's medicine? It cured me and will cure others." A GREAT FREE OFFER.

Persons suffering from chronic forms of disease are invited to consult Dr. Pierce by letter, free. All letters are held as private and their contents guarded by the same strict professional privacy observed by Dr. Pierce in personal consultations at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

This offer is not to be confounded with those offers of "free medical advice," which are made without any evidence of medical qualification or professional standing. For more than thirty years Dr. Pierce, as chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., as-Surgical Institute, of Buffalo, N. cured many thousands of men and women who had been given up by friends and physicians as incurable.

Dr. Pierce's success has been founded on the fact that he cures so-called "incurables."
