Tooth Brush Economy.

We have tooth brushes for five and ten cents that are sold for double the price in some places. Extra good ones for fifteen cents, splendid values for the money, but we do not urge the sale of any of these because real Idownright economy comes in buying something a little better. We would advise you to pick a brush costing 25 cents or more for two reasons:

FIRST-Your teeth are worthy of the best brush made. The better the brush the more perfect its

SECOND-The higher grade brushes are guaranteed to give long and perfect service.
