To the Pennsylvania soldiers who served on the fields of Chickamauga Chattanooga, etc.—I have just returned from Harrisburg, and find that the sec from Harrisburg, and find that the second edition of Pennsylvania at Chickaramauga and Chattanooga is ready for distribution by the Adjutant General, the Legislature having appropriated money to pay postage, so that the volumes can be sent direct to the persons entitled to receive them. The name, address, company and regiment of every comrade entitled to the book should be sent at once to the Adjutant General. The names and addresses of the widows of deceased comrades and of comrades residing out of the state should be furnished to the Adjutant General, and if there are books enough they may also be supplied.

low cars, which run to Niagara Falls. All the cars running directly to the Expo. have signs on them saying so, and as the city is already crowded with visitors the cars are always crowded. The Exposition grounds are located in the northern suburbs, and most of the cars run to the west side entrance, where there is an immense car depot. Upon entering the grounds from either the east or west side gates, as good a plan as one can make is to buy a ten cent weekly guide book which contains a map of the grounds, and walk directly to the centre (or northern centre) of the grounds to the Fountain Tower, and get into the elevator and go up 250 feet and locate the different buildings, which are grouped around a fountain basin, and enclose a space called the Esplanade.

The city itself seems to be on a dead evel not more than twenty feet above the level of the lake and river.

thinkthat that water is running the street cars of that whole section, including Buffalo, and lighting the city and the Expo. The water enters a canal, above the Falls and falls through a shaft to the tunnel, turning a number of large turbines, which in turn operate the largest electric plant on earth. The Sunday travel to the Falls is immense, and if you go that day, you had better walk down Main St. to near the loop, to be sure of securing a seat, as the ride is ore of 22 miles taking at least an bour and a balf. Butler is especially fortunate in transportation facilities to Buffalo. The B. R. & P. is giving us a service unsurpassed by the trunk lines of the country. By the "Bessie" one can go to Erie, and from there to Buffalo by boat,

Besides these one can go by either of the Pennsylvania routes—up the Alle-gheny river or the Pittsburg and Erie line; or the P. & W. via one of the lake cities and a boat. Soliciting by agents of the hotels, and boarding houses is for-bidden on the trains or at the stations, and its best to know before you start for what part of the town you intend to head.

The city is full of hotels, boarding houses, rooming houses, (also called hotels) and private houses where roome can be secured at \$1.00 a day and up. Two Butler boys stopped last week, at the Hotel Schenley, at 200 Niagara St., not a great ways from Main, where they had a good room, with the use of bath room on same floor, at \$2,00 per day; and took their meals at neighboring restaurants and boarding houses. If you go to the Schenley you will find Fred. Oliver, the manager, a jolly fellow, who knows some Butler people, and will make you comfortable: and right around the corner, at 121 Morgan St., you will find "The Randall," a first class boarding house, kept by Misses Lillie and Georgie Randall, dan/thers of N. M. Randall of Cherry twp. They are delighted to see Butler people, and you can get a good meal there, but last week, every room in their house and all they could secure from their neighbors were occupied. Signs offering board and rooms are up everywhere, there are some great temporary hotels outside the grounds, and some big hotels down town. The newest and best is the "Iroquois," an immense red brick building, the first floor and basement of which are finished in a pink marble. Another great building you should look inside of, down town is called "Ellicott Square." It occupies a whole square, is about fourteen stories high, is built of a white stone, (with considerable carving), has a covered square or area in the centre, cost several millions of dolars—was built by a Boston company, has hundreds of stores and offices, and is a "city in itself."

There is no better place in Western Pennsylvania for rest and recuperation than Cambridge and there is no better place to stop at when there than the Hotel Kelly, located a half mile out of town, near the Mitchell Iron and Magnesia Springs. The water of the little magnesia spring in the woods is the best about the place. You will find the buss of the 'Kelly' at the station and you will not regret giving the house a trial.

The news of Rev. Passavant's death was a great shock to many in this place. But a few days before, June 27 Thursday, some of our people had met him at Zelienople and with him had taken part in the annual donation meeting for the benefit of the Orphans School there. He then appeared in his usual vigorous health. On leaving there he went with his mother up to Laurel Ridge, an old summer resort of the Passavant family. His death there was very sudden, thought to be caused by heat and overwork. His remains were taken to Zelienople and there laid to rest on Wednesday evening July 3, besides those of his illustrious father, William A. PassavantSr, whose lamented death happened about this time seven years ago. Wm. A. Jr. took up the great work and offices of his father and well filled them until the day of his death.

Mrs. Susan McKeever died last Thursday at her resieence in Jefferson two Mercer county, aged 110 years. is strength. A well woman will be a strong woman. She will not be "just dragging around" with throbbing head, aching back and constant weariness. No woman can be strong who is

and fretful.

How reasonable this is. The child can have no strength which the mother does not give it, and how can the weak mother, who has not enough strength for herself have anything to spare for her babe? THE FAIRY GOD-MOTHER

ther babe?

THE FAIRY GOD-MOTHER

is a very pretty invention. But the real fairy god-mother is the natural mother of the child. It is she who must endow her child with health from which springs all other endowments desirable for humanity.

The way to have healthy children is to be healthy. But how to be healthy is the vexing question for women. Is the mother to blame because she is nervous, because her appetite falls and her strength wanes, because she is sleepless and despondent? One cannot blame the woman whose only failing is that she does not know how to change her condition. Yet a woman's health is practically in her own control. If she is weak she can be made well. The experience of other women shows that the rose of mother-hood can be stripped of its thorns by the use of Dr. Pierce's Favorite Prescription.

"When I wrote to you in March, asking advice as to what to do for myself," says Mrs. Ella Reynolds, of Guffie, McLean Co., Ky. "I was expecting the baby's coming in June, and was sick all of the time. Had been sick for several months. Could not get anything to stay on my stomach, not even water. Had mishaps twice in six months, and threatening all the time now. Had female weakness for several years. My hips, back and lower bowels hurt me all the time. Had numbness from my hips

The Electrical Display—has never be fore been attempted by Man.

Going into the city of Buffalo by rail one's first wonder is at the large number of tracks converging towards the Exchange street stations; indicating, as they do, that Buffalo is a great railroad centre. All the great railroad interests of the country make a bid for the Buffalo trade, and the tracks are so numerous that several of the streets of the lower part of the city cross over them by bridges.

Exchange street is a cross street of the lower part of the town, running nearly east and west, and all or nearly all the street cars going west on it turn to the right and go up Main St.—the principal street of the town—running from the docks on the south to the northern city limits, a distance of about seven miles. Locate that one street in your mind and you will have no trouble finding your way about Buffalo.

A few blocks up from Exchange street Niagara street comes into Main at an angle from the northwestern section of the city—called the Elmwood district—and where it joins Main thereis a triangular space, with the immense white-stone office building, called "Ellicott Square," nearly opposite on Main.

Nearly all the street cars running up Main street go directly, via Elmwood and other streets, to the Fair; as do also nearly all the cars starting at the junction of Niagara and Main streets, and running up Niagara, excepting the yellow cars, which run to Niagara Falls. All the cars running directly to the Expo. have signs on them saying so,

The city their seems to be on a dead level not more than twenty feet above the level of the lake and river.

Restaurants, water, conveniences, etc. abound everywhere and no one need suffer. The heat there, in the sun last week, was intense, and several people collapsed each day. The best place to cool off is up in the tower, but the elevator fee of 25 cents forbids the trip being made too often. Meals can be had on the grounds at 50 cents up. The best restaurants are run on the "a la carte" plan, that is you pay for what you order, and the prices are about double what they should be. There are several large beer halls on the Midway and everybody in Buffalo (that is both men and women) seems to drink beet. Atrip around the grounds on a boat costs 50e, nearly all the Midway "attractions" are 25 and 50 cents, and anybody who goes there with the intention of seeing the "whole show" had better carry a good sized wad in his pocket.

It is a splendid "show" by daylight. The buildings and exhibits are as ner fect as man can make and one bent on being "up-to-date" in everything could stay there all summer, and then see but a small part of it; but it is not till the shades of night come on that the great fenture of the Fair—the Electric Display—can be seen. Every angle of every building, the roofs, and the Eletric Tower from foot to crown (400 feet) are lined with electric lights. The tower alone has forty-thousand of them, and the whole number on all the buildings is half a million; and, standing on the bridge at the south end of the Esplanade looking north towards the tower, with the large fountain illuminated by electric lights, one views the grandest scene ever made by man. That sight alone is worth the trip to Buffalo, and will live in one's memory for the balaceae life. Manie, in orth the large of the heads of the second life.

follow the old Military road, down the river, through. Tonewanda, and land you at the Park, from which you can wander over to Goat island, and around the Falls at your leisure.

The fare from Buffalo to the Falls and return is 50 cents.

At the foot of the bridge, just below the Falls, on the American side, you will notice a torrent gushing from the tunnel, and making a current nearly across the river, and perhaps never thinkthat that water is running thestreat cars of that whole section, including Buffalo, and lighting the city and the Expo. "We praise Dr. Pierce's medicine for it has cured me. I am better now than I have been for thirteen years. I hope all how are afflicted will do as I have done and be cured."

Dr. Pierce's Favorite Prescription is a perfect medicine for women. It establishes regularity, dries the drains which weaken women, heals inflammation and cures female weakness. It is the best preparative for maternity, strengthening the nerves, encouraging the appetite and inducing refreshing sleep. It gives the mother strength to give her child and make the baby's advent practically painless.

"During my two years of married life I have not had good health," writes so fi married life I have not had good health," writes was all run-down, and my husband got me to write to Dr. Pierce and explain my case to him and see if he could do me any good. So I wrote and, thank the Lord, got an early reply, telling me what the trouble was. I commenced taking Dr. Pierce's Favorite Prescription, and also the 'Pleasant Pellets,' and now can say that I feel like a new woman, and can say also that we have a big baby four months old. When the baby came it was just wonderful how I got along and now I do all my work and do not feel tred out like I used to. I have taken eight bottles of the 'Favorite Prescription.' It makes one feel well and strong."

Women who are troubled with chronic diseases are invited to consult Dr. Pierce, by letter, free. All letters are privately read and privately answered, and womanly confidences are guarded by the same strict professional privacy observed in personal consultations. Address Dr. R. V.
