Dear Sir: You know how well it pa Dear Sir: You know now well it pays to keep your carriages painted, both for looks and to keep out water. It pays as well to paint your barn and your house. We put your barn first, because that is your business—your customers

that is your business—your customers see it.

You see, there are two good reasons for paint: one is looks; the other is wear. If you paint for looks, the wear will take care of itself.

Paint often for looks; and use good paint for both looks and wear.

The best paint is Devoe lead and zinc ground together by machinery; same proportions as are used by the U. S. Governent. It wears twice as long as lead and oil mixed by hand.

Grand Opera House-Pittsburg.

One of the most important events of the new theatrical season just beginning will be the opening of the Grand Opera House with its new stock company on Monday, September 2nd. So many attractive elements have been combined by Manager Harry Davis for this occasion that Pittsburg theatregoers cannot possibly resist them. First of all, the honse has undergone a thorough innovation from pit to dome, no expense being spared in any quarter, until the general tout ensemble, as it were, is a feast of color, the whole presenting one of the prettiest interiors of any theatre in this country.

The play for the opening week is Mrs. Frances Hodgson Burnett's famous play, "A lady of Quality." This is the play in which Julia Arthur goored the hit of her career. When Miss Arthur presented "A Lady of Quality" in Pittsburg \$2.00 per seat was the price paid by the public. The performance was well worth it. Manager Davis is determined that his production of the same play will equal in every detail that achieved by Miss Arthur. It will exceed the best that has yet been seen at the Grand, which is saying much. JELLIES.

Neither time, moisture nor mould can affect jellies that are sealed with parafine wax. Fill your glasses or jars, pour a film of paraffine over the surface, and the jelly will keep for a century if you want it to.

Paraffine is white, tasteless and odorless, and is proof against moisture, acids, insects and germs It prevents evaporation, granulation or change of any kind. A pound of paraffine goes a long way and can be used over and over again year after year. Just as good for covering preserves, fruit butters and jams.
