CATARRH

Enemies by Giving a Swagger Watermelon Party and How She Floored Herself and the Guests as Stay crushed."

Well. [Copyright, 1991, by C. B. Lewis.]
"I belief maype you vhas on some vacations," said the German grocer as the janitor of McMurphy's flats showed up the other day for the first time

"No, I have had no vacation and don't expect to have," was the reply. "You see, I am a janitor with the asth-

"SIX BIG WATERMELONS."

the halls. I've got to be consisten bout things, you know. I shall take my vacation in an armchair in the basement, and I shall take due care that none of the tenants forget what a fragile physique I've got. You know what physique is, don't you, Mr. Was-

ing around, maype."
"Yes, that's it, and I don't propose to jump. In the first place, a janitor should move with dignity when he moves at all, and in the next it's beneath, the position to worsele about the position the position to worsele about the position the position to worsele about the position to worsele about the position th neath his position to wrangle about goats, dogs and children in the halls. It also gives chic to a flat to have a fanitor who doesn't sweat his collar on a hot day. I think I know my gait Mr. Wasserman—I think I do." "Und how vhas all dose bad peo-les?" asked the grocer after an ad-

miring glance. They are still trying to outdo each other, and that keeps things lively around

"Und does some one pull hair?" "No, there hasn't been anything of that sort for the last month. When women quarrel, they try to find ways to hurt each other's feelings, you know. Up to three nights ago the barber's wife and the Countess Divito had Mrs. O'Sullivan crushed to earth, but then

of the procession again. I gave her the hint myself, and she ought to be very grateful to me."
"Und how vhas it?" "Why, she gave a watermelon party. The barber's wife gave what they call an fce cream fling, and the Countess Divito followed with a banana festival. Both were successes, and Mrs. O'Sulli-Wasserman, that a watermelon party

sently queried the grocer.
"Six big watermelons, Mr. Wasse man, and each primed with a pint of claret and kept in an icebox for three days. There were 40 bon ton people at the feast, the very cream of society. Not a hint had reached the barber's wife or the countess, and when the swagger began to swagger in there was consternation in McMurphy's flats. It was a cold cut on the two women and they were too weak in the knees to stand up. Yes, 40 swagger guests, and some of the women had on shirt waists which cost at least \$2 apiece. I myself counted nine different pairs of tan shoes in that gathering, and all but three or four of the gentlemen had col-lars on. An accordion furnished de-

ere covered with red paper."
"Und it vhas some success?" "It was, in two ways. In the first lace, the gathering was all that could be hoped for, and in the next not a per son gave himself away. You see, every one of those melons was as green as grass, and the claret soured them till they were like pickles. Mrs. O'Sullivan went whiter than chalk when the st melon was cut and was found to be as hard as a rock and as tasteles as an old shoe, but the guests came to her rescue in a way to melt your heart Swagger is as swagger does, Mr. Was

lightful strains, and all the gas globes

"But vhas some green watermelon: swagger, Mr. Sprocket?" asked the

"Not exactly, but what did those swagger people do when they found them green? Just turned right in and devoured the whole six to save the feelings of the hostess. Yes, sir, the melons were cut up and passed around, and everybody ate and smacked his lips and said he had never tasted any thing so good. It took them an hour to down those melons, but they left nothing but the rinds. If they had been stuffed with cotton, it would have been the same. Swell society never makes any blunders, Mr. Wasserman.'

"But one time I cat a green water-melon und haf colic." meion und haf colic."
"That's another point, Mr. Wasserman, the greatest point of all," said the janitor in a whisper. "Don't you give a thing away for love or money, but I'm telling you that every one of those 40 guests had colic to beat the band before the last melon was fairly down. They grew pale and twitched and shuddered and wriggled around, but not one of them let out a hint of what was the matter. Swagger socie

"Und did dev suffer?" "You bet they did! Some of them were almost tied up in knots with the he visited the church to see how it pains, but they laughed and smiled just the same. The party broke up early, but no one mentioned colic. They had all sorts of excuses, and some of them were doubled up as they walked out, but they were game to the last. They went out saying what an enjoyable time they had had and what a lugicious thing a watermelon was, and neither the barber's wife nor the Countess Divito caught on to a thing. That part when we get a popular meenister?"

'Und vhill somet'ings more hap-

The Evolution of Warships.

A man need not be a scholar to be an inventor. One of the most successshe took a rally and is now at the head of the procession again. I gave her the made a study of aerial currents and the management of ballocus once delivered an address in which he referred to "the anaconda" as "the largest bird that ever flew," and he also remarked that "the mental faculties of a man's mind is so constructed as to bring things down to a pin's point." He also referred to the currents of air as stretchums, meaning strata, and yet he was one of the foremost balloonists of

He was an inventor also of many useful things and was the first man coach parade, with 3,000 school chilclaret into each and have the fruit fro-zen. Then you eat it with a silver spoon and wipe off your chin with a red bordered table napkin. I gave Mrs. O'Sullivan all the necessary pointers, and the affair was a tremendous success." and from that humble beginning the evolution or revolution in naval architecture took its start .- Baltimore Sun.

> Director General Buchanan says the nly problem now confronting the Exposition is how to find days enough within the closing weeks to adequately take care of the many attractions and features now being planned. He predicts a great attendance during the month of October and one far in excess of the highest estimates that have been made by the most sanguine. In inswer to the inquiry as to whether of crowds, he said there was no difficulty whatever in this regard; that Buffalo could easily care for 250,000 strangers every day comfortably and at reaso able prices.

In the Muste Temple. The organ recitals in the Temple of Music are dally features of the Pan-American Exposition. Many celebrated organists are on the programme for October. Victor Herbert's famous orchestra will be at the Temple of Music from Oct. 14 to the close of the Ex-

Dogs and Somersaults. As there is more than one way of cooking a goose, so there is more than one method of teaching a dog to throv somersaults. But the most practical and thorough manner is to fasten a ord around the body of the animal close to the forelegs, and two people should hold the ends of the cord on either side of the unfortunate dog.

A third party armed with a stout front of the canine acrobat and with a easured and masterly stroke flogs the floor at close quarters to the dog's

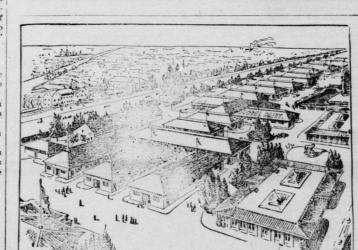

springs backward, and that movemen the trainer's golden opportunity. As the dog spring backward the rope pass ing under its body is jerked upward, and, although the first few attempts may prove futile, the somersault is acgent dog soon sickens of this order of things and throws so out the assistance of ropes.

A good story is told of one of the dig itaries of the Scottish church. Before e became known to fame he was minister of a remote parish in Perthshire attractive preacher. At his suggestion extensive alterations were made in the transept of his church, and these had the effect of sweeping away considerable seating accommodation. One day after the alterations had been effected

"What do you think of the improve ments, John?" he asked of the beadle "Improvements!" exclaimed John in disdain. "They're no improvements a a'. Whaur are ye goin to put the folk?" "Oh," said the minister, "we have abundance of room, John, considering the size of the congregation. "That's a' very weel the noo," retorted the beadle, "but what will we do

GREAT DAYS ... AT THE ... *

PAN-AMERICAN

LIVE STOCK BUILDINGS PAN-AMERICAN EXPOSITION.

The Exposition in point of beauty and interest is at its climax, and the programme of special events is such as to attract and please. September started with great crowds, and only the tragedy in the Temple of Music, which stun-ned and shocked a world, halted an overwhelming success in that month. The Exposition management as a tribclist) — Get down, John, quickly and take his name and address. I'm sure he has knocked some paint off my new of the third martyred president took place. The crowds since then have poured to Buffalo. The Temple of Music, now hallowed and historic ground, has been the Mecca of thou-

Buffalo has demonstrated her ability to care for great crowds satisfactorily, not only in hauling them to the Exposi-tion by street car and steam railway at a fare of but 5 cents from any part of the city, but to house and feed them at prices in the reach of all. The stories of exorbitant prices were long ago shown to be fables, and every visitor who makes the slightest effort to get accommodation can do so wholly with be held in the New York State building

In his means.

The Exposition itself, with its beautiful buildings, its coloring by day, its magic lighting at night, its walks and courts, its canals and lakes, its fountains and statuary, its exhibits and its amusements, has been a delight to the amusements, has been a delight to the former in New York State, not to mention those in other parts of the states of

The Exposition Company opened up or four weeks. the month of October, beginning Monday, Sept. 30, with a Carnival week of splendid events, including a baby week there is a great sheep show in dren singing in the procession, a mongorical parade and the feature of the peautiful floral parade at Saratoga. These will take place on Thursday and Saturday, Oct. 3 and 5, but every day from Sept. 30 to Oct. 5 will be replete with interest. Special fireworks on the lake, with decorated and illuminated aunches in a procession of flery grand-eur, will afford new and wonderful neations to the visitors.

Thus October will be ushered in with programme so arranged as to give he American public a delightful week. The life saving drill, daily, has become one of the great attractions of the Exposition. It tells the story of the work of the heroic men who guard the thores of ocean and great lakes, alays on the alert to drag from death's tates marines, the seacoast guns, th dnance and all the exhibits showi ar's panouly and our defensive mer ares have been a great educator to housands of visitors. Some military ompany is always encamped in the ever without interest.

With the magnificent exhibit of the inited States Government and the outh and Central American States' ulldings every visitor can spend a day. No exposition has ever provided beauty of architecture and with s

5,000,000 visitors who have already country, ought to see the attractions of the Rainbow City during the next three

"The New York State farmers and ster pageant with the floats used in the New Orleans Mardi Gras and alle-find it most interesting to compare the South American breeds with those of North America.

"It will surprise many to learn that the pavilions for animals at the Pan-American cover ten acres and are ca pable of housing 35,000 animals.' The programme for October so far as made up at this time is as follows:

11. Atlantic City day.

U. of B.-Brown football, fireworks.
 13-15. Free organ recital, Clarence Eddy, New York.
 14-31. Victor Herbert's orchestra, Pittsburg, six-

troit, Mich.
21-31. Exhibition of poultry and pet stock.

7-29. Free organ recital, William B. Coulso

THEN Superintendent better series of live stock shows at the Pan-American Exposi tion than was ever before attempted, the statement was accepted as an ordinary pleasant and pardonable exag-

The complete success of the dog and the swine shows, however, proved to be the first steps toward redeeming his The cattle show was an agreeable

surprise to every stockman who saw it and at once established a new standard of excellence that will not be equaled for years to come and possibly never surpassed as regards quality. The sheep show, now fully under way and lasting to Oct. 25, is in every way a worthy successor to the dog best flocks in the United States and Canada are represented, together with their recent additions of imported stock, consisting of about twenty fin

animals now shown in this country for the first time. The sheep show, taken as a whole, is one of the most complete ever brought together. Every important breed has a strong representation, while every buildings, and never was so much given for so little.

breed known has an exhibit of som kind. The Island Black Face, of which given for so little.

The gorgeous pyrotechnics—and no exposition has ever been so lavish in the display of fireworks—are free to

ets of startling beauty and mystifying construction.

To the millions interested in agricul
Merinos. Vermont, the home of the stock and poultry rearing, the Merino, where the only distinctiv Pan-American Exposition especially American breed of sheep originated, is appeals. The cattle show was a tre-mendous success and the sheep show, beginning Sept. 23 and continuing to Oct. 25. has proved an attraction for those interested, from every section merous. We have borrowed almost evAngora Gonts.

In connection with the sheep show is an exhibit of 240 Augora goats. These nteresting animals fill one of the live gora goats is a comparatively new business in this country, and very lit-tle is known about it in the east Their adaptability to rough, rocky pastur-lands, where they graze and grow con tentedly, has brought them ecominently into consideration where such lands have proved useless or nearly so

Wool Exhibit. Superintendent Converse has arranged an exhibition of wool. This is international in scope, having fleeces from the different states. Canada and several South American countries. Argentina alone contributes more than 200 sam Salvador and other Central and South American countries are also represent-ed. Such an international wool exhibit was never before attempted. It can-not fail to produce lasting benefits that will be shared by growers of sheep, manufacturers of woolen goods and through them the general public.

Shearing Machinery.
Still another accessory to the sheep industry is elaborately illustrated. In one of the stock buildings a platform was erected about three feet above the floor, upon which is installed the latest and best shearing and clipping machin-ery. Some of the machines are oper-ated by electricity, while others are worked by hand. To show to Exposi-tion visitors their practical working, twenty sheep are brought from the East Buffalo stockyards every morning. One machine is set in motion each

from the Dominion of Canada, most of the exhibitors being located in the province of Ontario. The province of Quebec is also represented. During without additional feed and without artificial shelter.

These are sent as an advertisement of the rich pasture lands and an illustration of what may be produced there without additional feed and without artificial shelter.

The Pan-American Horse Show. The Pan-American Horse Show.

> found in the United States and Canada. Vermont is again courting prominence by sending a fine lot of Morgan horses, a breed that should receive more attention than it does.

Draft horses, especially the Clydes-dale and Percheron breeds, are well represented. These are principally from Canada and the western states.

German coach horses attract a great deal of attention. One large importa-tion of these horses will be brought direct to the Exposition.
French-Canadian horses from Quebe

breeds it is only necessary to select any kind of horse wanted, with the assurance that it will be on exhibition. The finest stables on the continent are contributing to the show with sufficient and thus a separation of the coarse enthusiasm to insure the finest representation possible. The judging takes effected. This should be avoided. place in the Stadium on the 9th and 10th of October, when this immense structure will be none too large to ac commodate those who will want to see this crowning climax to such an elab-

From Oct. 21 to the close of the fair the stock pavilions will be once more filled with life, though in a very dif-ferent form. Poultry of high degree from all parts of the United States and without regard to politics or tariffs. As near neighbors the poultry will have mice, rabbits, cats, cavles, prairie dogs, squirrels, ferrets, rats and Belgian hares, besides a great assortment of pigeons, owls, magpies and a great

Eight thousand animals and birds are being gathered together to form this complete cosmopolitan assemblage of birds and animals.

The Pan-American Exposition is proving a great success. While the enter-prise suffered for a few days from the national tragedy, the crowds that have put off going until the fall are rushing to Buffalo in great numbers now

President Roosevelt said of the Pan-American Exposition, "It is well worth the while of every man, woman and child in the country to visit the Pan-American Exposition."

More than 5,000,000 people have visitd the Pan-American Exposition. As Secretary of Agriculture Wilson said on Sept. 11, after a visit, "No one can afford to keep away.'

merican Exposition after viewing the lumination, "This is the apotheosis of he incandescent light." Poultrymen from all over the United

States will be meeting at Buffalo and the Pan-American Exposition the last

an Exposition have been most popular

The sheep show began Sept. 23 and lasts until Oct. 25. Innes' band, one of the best in the

country, will give concerts free to all Pan-American Exposition visitors from Some Advantages.

DOWNY MILDEW.

Downy mildew is the most serious lisease of the lima beans. It is met with in other states, and at the pres time it is a serious menace to the grow-ers of lima beans in New Jersey. From a bulletin on beans and their diseases just issued from the station of that state it appears that in some instance pole lima beans have been so bac attacked that few or no pods we picked. The mildew was worse with the station of the plants growing upon rich lowlands and where the same crop had been upon the ground the previous year.

Not only the young pods, but the whole flower clusters, are destroyed, and the dead leaves of these stand up

MILDEWED BEAN PODS AND PLANT TIP above the surrounding leaves of the af-

The Pan-American Horse Show.

Dame Fashion may have withdrawn her smile of approval and the different styles of autos turn their backs in derision, but the horse still holds favor with the great majority of mankind. The horse show at the Exposition which holds the boards for two weeks, sion, but the horse still holds favor with the great majority of mankind. The horse show at the Exposition which holds the boards for two weeks, from Oct. 7 to Oct. 19, will be no exception. Five hundred horses are coming which are carefully selected to faithfully represent the best of every breed found in the United States and Casada and a selection of well drained land and a deaux mixture will insure a crop. The selection of well drained land and a light soil, reducing the number of vines in the hill and planting the poles erect will insure conditions as little favor-able to the development of the fungus

as possible.

The late autumn growth of lima bean mildew is remarkable. It thrives on pods after the plants are killed by,

WHEN FILLING THE SILO.

and endurance will commend them as superior coach horses and those that will command favor in any market.

Instead of enumerating the different toreds it is only necessary to select the silage next to the walls, where the greatest friction occurs in settling, says an Orange Judd Farmer writers in kind of horse "While the silo is being filled a man hould be there all the time to keep the "If the silage be allowed to fall from the end of the carrier to the bottom of the silo, it will quickly form a conical

"To overcome this objection and to facilitate the work in the silo I had a flexible metal spout made that has been in use now for several seasons and it works very satisfactorily. It made of a series of round galvanized iron pipes that overlap each other four inches and are fastened one to the other by means of a strap and a few links of small chain on each side of ev that is riveted to the lower end of the

ection of pipe next above, etc.
"These sections of pipe are 28 inche long, 10 inches in diameter at the small end and 11 inches at the other end. Enough of these sections are made to reach from the end of the carrier to within four feet of the bottom of the silo. The two sections next to the car-rier are made gradually larger than the others and of such shape as to accom-modate themselves to the end of the carrier. By directing the nozzle of this spout the man in the silo is enabled to place the silage exactly where it is wanted, and, most important of all, the grain, leaves and stalks are distributions.

ed in the proper proportions. Yellow Peaches to the Fore. There seems to be a growing tendency in the Michigan peach belt at the present time toward the planting of yellow peaches to the exclusion largely. of the white kinds. This precludes to a great extent the possibility of any of the newer white varieties becoming widely popular unless coming at a sea-son when there are no good yellow varieties ripening. The open city market gets the bulk of the white fruit now. grown. Buyers much prefer yellow fruit, and special orders sent direct chardist usually call for yellow peaches. This preference for yellow varieties loubtless comes about largely through the fact that as a rule yellow peaches handle better than white ones, arriving at their destination freer from discol-oration and in better condition generally. No doubt the advent of the me-chanical grader, which subjects the fruit to more severe handling than grading by hand, will further enhance this preference for yellow varieties .-
