NEW LAWS.

The pamphlet laws of Pennsylvania for the year 1901, with the index, make a book of 1013 pages, and as some four ndred old laws were repealed by the late Legislature, as well as about the same number of new ones made it will be well for our attorneys and justices of the peace to scan the work carefully both in order to ascertain what is new and also what measure of their previous knowledge has been repealed by this— the most extraordinary legislature of

These are all clean, new goods, made by one of the best firms in the country, all sizes 3 to 8, and are made in button and lace; wide, plain toe, or narrow tip.

How we Came to get Them.

One of the largest manufacturers of women's every day shoes in the country, having taken the contract to make these goods in a specified time for a big firm and failing to complete them in alloted time, they countermanded order and bought goods elsewhere. This left the goods on factory's hands. They knowing our facilities for handling large amounts of goods, wrote us at once, offering us the goods for less than cos* of leather if we took the whole lot. We had already bought a large lot of winter goods, but could not resist the temptation to take advantage of this great bargain. The goods have arrived and we are going to make this store the busiest place in Butler county while they last.
