

GIRL WOMEN.

The general standard of measurement for womanhood is "grown-up-ness." When a girl is emancipated from school and arrives at the dignity of trailing skirts and elaborate hair dressing she is looked upon as a young woman. But a girl knows nothing of such standards, and she is not a young woman. It is a womanly function to be established, and when it is attained according to her standards, and she is a womanly girl, she is a womanly girl. It is a womanly function to be established, and when it is attained according to her standards, and she is a womanly girl, she is a womanly girl.

THE RUG DESIGNERS

PATTERNS DESCEND FROM PARENT TO CHILD IN THE ORIENT. Reasons Why Animal Figures Are Rarely Seen on Persian Rugs. Prayer Rugs of the Mohammedans and Their Use—The Rugs of Sivas. The designs of eastern rugs are often the spontaneous outcome of the fancy of the weaver. Sometimes they are handed down from one generation to another. In some cases young girls are taught the design by an adult, who marks it in the sand. At other times a drawing of the rug is made on paper, the instructor showing her pupils the correct use of color and the proper color to be used. When all this has been done, the pupils must make the rug without looking at the drawing.

THE FIRST AERONAUT

HIS INITIAL FLIGHT INTO SPACE WAS AT PARIS IN 1783. Pilatre des Rosiers Was the Pioneer of the Long Lines of Daring Spirits Who Perished in Their Attempts to Navigate the Air. The first attempts to make ascensions by means of balloons were made in Paris in the year 1783. Pilatre des Rosiers was the first and most illustrious of the long list of aeronauts who have fallen victims to their desire to advance the art of aerostatics. In July and August of the year 1783 balloons filled with hydrogen gas were sent up from Paris, and in September at Versailles the first balloon was sent up freighted with living animals.
