

REAL ENJOYMENT.

The woman who reads this will understand the full worth of Tipton's when she says: "I am enjoying good health." It takes a person who has been made wretched by sickness to understand the joy of health.

There are very many women who suffer as did Mrs. Tipton, who might be cured as she was by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. It makes weak women strong, sick women well.

"It is with pleasure I recommend Dr. Pierce's Favorite Prescription," writes Mrs. Tipton of Campbell (Copper Springs), Shelby Co., Kentucky. "You remember my case was one of irregular menstruation, I had no appetite and would often spit blood; was confined to my bed almost half of the time and could hardly stand on my feet at times for the pain through my back. I was told that I had a bad case of the doctor bills for me, but since I have taken four boxes of Dr. Pierce's Favorite Prescription, my health is restored, my appetite is good, my back is better, and I feel better than I ever did before."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

CURIOSITIES OF MICA.

Its Appearance Before It Is Split Into Sheets.

The mica as it comes from the mines is in blocks which are theoretically short rhombic prisms, but practically are very rough and uneven contour. They have a very perfect cleavage parallel to the base and may be split into laminae thinner than the thinnest tissue paper, and these laminae form the familiar transparent stove panes and lamp chimneys. The better portions of these blocks are opaque, brittle and worthless, presumably from the penetration of water, for mica soon decomposes when exposed to any considerable weathering. A thick layer of plates has therefore to be removed from either face of the blocks before any mica of commercial size or value is reached, and the sheets split from the remainder are surrounded by a wide margin of worthless material.

But a disingenuous and assiduous mica mining are far from being all enumerated. Even when occurring in blocks of commercial size it is rendered valueless, or comparatively so, by one or more of a series of defects, which may be classified as color, specks, ruling, ribbing and wedge formation. It sometimes occurs literally banded with black, consisting in general of black oxide of iron or garnet, and when even a few of these are present its commercial value is destroyed, because such mica when used as a lamina is peculiarly liable to puncture, the specks forming practically short circuits for the electric current. The mica is true of streaks, which are sometimes turned to red rust.

Some otherwise excellent mica is found to be ruled or cut, as it were, with a series of perfectly straight lines, parallel to one side of the crystal, so that on being split the mica falls immediately into strips; or, again, instead of being striped or ruled, the mica is often deeply ribbed or corrugated parallel to the adjacent edges of the crystal, so as to give the appearance of the letter A, or rather, V, whence it is termed "A mica." As the ribbed portion has to be cut away in the sheet, such mica is unprofitable unless the blocks be large. Wedge mica is that in which the block is thicker at one end than the other, the laminae partaking in the unevenness. Such blocks are wholly worthless except as scrap—Engineering Magazine.

OLD FASHIONED.
What has become of the old fashioned woman who said, "Oh, now you have!"

What has become of the old fashioned woman who had his picture taken in lodge regalia?

What has become of the old fashioned woman who wore a long gold chain around her neck?

What has become of the old fashioned woman who referred to the best room in her house as "the room?"

What has become of the old fashioned girl who, as soon as she became engaged, got out her crocheting needle and began to make her own trimmings?—Athenian Globe.

Took the Hint.
A story is told of a certain English bishop well known for his verbosity who rose to address the house of lords on a very important occasion. "I will divide my speech under twelve heads," he said, to the discomfort of his audience.

The Marquis of Salisbury begged to be allowed to interpose with a little anecdote. "A friend of mine was returning home late one night," he said, "when opposite St. Paul's he saw an intoxicated man trying to ascertain the time on the big clock there. Just then it began to strike and slowly tolled out 12. The man listened, looked hard at the clock and said: 'Confound you, why couldn't you have said that all the while!'"

The bishop heartily joined in the laughter which followed and took the hint contained in the story.

The Growth of Seaweeds.
Seaweeds vary surprisingly in their habits of life. Some species grow altogether beneath the water, attaching themselves below the lowest tide level, other frequent heights where they are left dry at every retreating tide, while others yet are found in situations where they are scarcely ever covered by water. Whereas most of them attach themselves to rocks or solid bottom, keeping to the shallows, there are exceptions to the rule, among which the most remarkable is the sargasso or gulf weed, which floats on the surface of the ocean. Immense fields of it are seen by the navigator, extending as far as the eye can reach. It is sometimes so abundant as seriously to interfere with the progress of ships, and it was this which so alarmed the crew of Columbus on his first voyage of discovery.

Wrath Disarmed.
A little Cambridge girl was discovered whispering in school, and the teacher asked:

"What were you saying to the girl next to you when I caught you whispering?"

"The little culprit hung her head for a moment and then replied:

"I was only telling her how nice you looked in your new dress."

"Well, that—yes—I know—but we must—The class in spelling will please stand up!"—Christian Register.

A Skinning Process.
"This," said the fond father to the dermatologist expert, "seems to be a pretty big bill for the treatment you have given my daughter."

"It was a difficult treatment," explained the skin doctor. "You see, we had to remove all the cuticle from her cheeks and graft a new epidermis upon them."

"Well," said the father, reaching for his checkbook, "I don't mind paying one of us you skinned the most."—Baltimore American.

The Mice in England.
Every deliberative civil body in England, even down to the town councils, is provided with a mouse, which is brought forth with solemn ceremony and placed on the table before the deliberations begin. In one or two city councils a candlestick of silver is added to the mouse, and acts passed in the absence of these objects are supposed to be illegal.

Reserved.
Joe—I saw you at the opera with Miss Uperton last night. She's certainly a beauty, but entirely too reserved for me.

Fred—You just bet she is. I saw her father this morning and reserved her especially for myself.—Chicago News.

Realism Most Attractive.
"Do you believe in realism in the drama?" asked the friend.

"I do," answered Mr. Stornington Barnes. "Many is the time I would have given a great deal to play Macbeth with a real banquet."—Washington Star.

Mark Twain's Cousin,

G. C. Clemens, of Topeka, Kan., the noted constitutional lawyer, who bears so striking a resemblance to Mark Twain, (Samuel B. Clemens), has been frequently taken for the original Mark.

G. C. Clemens is a man of deep intellect and wide experience. He is considered one of the foremost lawyers in this country. In a recent letter to the Dr. Miles Medical Co., Mr. Clemens says:

"Personal experience and observation have thoroughly satisfied me that Dr. Miles' Nervine contains true merit, and is excellent for what it is recommended."

Mr. Clemens writes, Pres. Pres. Clemens, of the National Society, Chicago, says:

"I have been using Dr. Miles' Nervine for some time, and I have received much benefit. I find that many who suffer as I did with Dr. Miles' Nervine, I am sure they will never feel better than I do after taking Dr. Miles' Nervine. I am sure I feel better than I ever did before."
