Tom Alexander can be proud of hi vote in Butler —890.

A dispatch from Washington to the Gazette reads as follows:

"Representative Showalter is trying to have a conference with ex-Representative Huff of Westmoreland county to arrange for a meeting between representatives of Butler and Westmoreland counties to decide upon a basis for the nomination from that district. Mr. Huff has the instructions of Westmoreland county, and Mr. Showalter those of Butler county.

Mr. Showalter confidently looks for renomination, and expects the aid of Senator Quay, owing to the fact that two of the three Butler county delegates to the late state convention went into the caucus and voted for the nomination of Judge Pennypacker. On the other hand, Mr. Huff's friends point to the fact that he delivered three votes to Judge Pennypacker in face of the claim of the Elkinites that they had the Westmoreland county delegation solid."

During the latter part of last week, the House defeated the government Pacific Cable bill, as the Commercial Cable Co. is now laying cables to Honolulu and Manila; and also adopted the Senate's bill for the irrigation of the arid plains of the West.

It is probable that this body can never be relied upon to join with the House in submitting such an amendment to the different States. But there is a way of forcing action. If the Legislatures of two-thirds of the States will but demand it there is no way by which the submission of the amendment can be avoided. This reform is growing. The Senate is to vote on the Canal question this (Thursday) afternoon.

The House, Tuesday, passed a bil amending the bankruptcy law. The Chester Co. Republican Convertion requested its delegation at Harrisburg to vote for Senator Snyder for U.S. Senator.

A protest signed by J. W. Lee, of Pittsburg; Thomas W. Phillips, of New Castle, and Clarence Walker, of Butler, a committee appointed by the Pure Oil company, a corporation composed of some 700 independent oil producers, has been addressed to members of the House, protesting against the passage of the ship subsidy bill, which measure has already passed the Senate and is being considered by the House Committee on Merchant Marine and Fisheries. The protest states that the direct effect of the bill will be to aid in the establishment upon the high seas of a partial, if not complete, monopoly of the ocean carrying trade. Continuing, the protest claims that the bill violates the spirit if not the letter of the Constitution, which says that no tax or duty shall be imposed on articles exported from any State. In concluding, the protest adds:

"The Pure Oil company protests against this bill, because it gives a bounty to tank steamers carrying petroleum, which has ranked third as an export, and thus discriminates in favor of some shippers prepared to take advantage of its provisions and against all those who cannot transport in subsidized ships. We neither ask bounty, nor do we desire that others receive it who do not need the advantage of this preference and can use it for the destruction of their competitors. It will not increase by a barrel the amount of oil exported, but may operate to limit its exportation."
