What Intermittency Means.
Intermittency is that form of irregularity in which the pulse appears to drop a beat occasionally. In some instances it occurs regularly and two or

stances it occurs regularly and two or three times per minute for several hours. Sometimes, also, it is very ir-regular and is noted a number of times within a few seconds and not again for a minute or more. This pe-culiarity generally causes much un-easiness. Yet, while it may be a very serious symptom and associated with grave and incurable disease of the heart, it often signifies merely a func-tional disturbance which is in nowise dangerous.

All souls' College, Oxford.

Perhaps the most expensive education in the world is enjoyed by the undergraduates of All Souls' college, Oxford. There are usually but four of them in residence, all of them on the foundation, with just enough to keep them comfortably in their rooms aloft over the college kitchens. The college revenues approach £15,000 a year, which should give an excellent education to four young men. But All Souls' devotes its money mainly to the support of fellows and the cult of good living, and the undergraduates get their education by arrangement from other colleges.—London Chronicle. The plans for this School are broad The plans for this School are broad and comprehensive.

Its primary object is to benefit teachers and those expecting to teach; but its scope will include the whole range of College Studies. A full term's worth in any three College Studies may be made up by students. There are nine members in the faculty, all teachers of ability, selected with special reference to the work of the department in which they are to teach.

The school will open June 24, 1902, and continue eight weeks. Rev. I. O. Campbell, D. D., Principal. Let all inquiries be addressed to Rev. J. H. Venzey, Business Manager, New Wilmington, Pa.
