POLITICAL. We understand that Judge Miller i again to preside at the session of Court ixed for next Monday, the 29th inst. when the scheme to divide three of the Wards of this town into election pre

cincts is to be disposed of.

This scheme, which originated with ome Democratic politicians, should be sat down upon, as it has yet to be shown that any such division is necssarv and when it is so shown the job can be gone about decently and in order,

Should they be approved by the next Legislature they will be submitted to the popular vote at the following general election. They are advertised now, in accordance with the fundamental law, in order to enlighten the people as to their nature. These great precautions are taken in order to prevent anything from being added to or taken from the Constitution without giving the people the amplest opportunity to discuss and understand the nature of the change. Amendments to the Constitutions must be printed prior to the election of the members of Assembly who pass on them in order that, should they be of any great importance, the they be of any great importance, the people may take the matter into ac-

The West Winfield School.

On Friday the 12th inst., the people of West Winfield celebrated the opening of their handsome new school-house which was erected by the Winfield Mineral Co., of which F. W. McKee is Treasurer, and presented to the School Board in the presence of several hun-

dred people.

Mr. McKee made the presentation ad dress and in his remarks on education

"On of the chief reasons, in my judgment, why farming does not pay, is that few farmers really make a serious study of their business. They go along year after year, raising the same crops, with little or no regard to the law of supply and demand, and of consequent market values. To my mind, the proper handling of a large farm is as great a problem and requires as high a degree of intelligence and judgment as the operation of a large mill or factory, and yet, how few are the men engaged in farming who give one-tenth of the thought and persistent application to the developement of their farms that the manufacturer gives to the operation and developement of his manufacturing business. The day will come, my friends when we will see a revolution in farming, just as we have seen in the past

ing, just as we have seen in the past three generations a revolution in manufacturing. And when that day comes, the intelligent well-educated, business-like farmer operating large farms on business principles, will be in the lead and all others will have to follow as best they can. In short, education by which I mean not merely book-knowledge, but the training of the mind that comes from the study of ones business or occupation, is going to give us better machanices, better merchants and better farmers than the world has ever seen ng, just as we have seen in the past

than the world has ever seen farmers than the world has ever seen before.

And now in passing, let me say a word in regard to the woman's side in this industrial advancement. Just as we expect this educational developement to give us better farmers, so we may expect this to give us better house-keepers. The educated woman of the future, if she is rightly trained, will know more of the science of good house-keeping, will know more about the properties of food and the best means of preparing it for the table; the proper clothing of herself and her family, not merely for purposes of display but for health and comfort. She will study the care and training of her children, so that they may grow up with sound minds in sound bodies. This work is in no respect inferior in importance to the

of hundreds of men who will not be here in November are said to be on our registry lists, the idea being to vote other men in their places; and a division at this time cannot help but cause confussion, and aid in illegal voting.

Besides this the western part of the town is rapidly building up, and anything done now will have to be done over again next year.

At the open meeting of the City Republican meeting, last Friday evening. Col. Thompson and S. F. Bowser, Esq. were the speakers, and both are for the ticket, the whole ticket and nothing but the ticket.

Judge Pennypacker and company were given a rousing reception in Pittsburg, Friday, and that night Old City Hall was crowded to hear them.

The Citizen's Party had as big a meeting in same place, Saturdsy eyening.

At Erie, Wednesday night, Judge Pennypacker denied all responsibility for mistakes of previous Governors and Legislatures and said: "If I am elected Governor of Pennsylvania and there is submitted for my approval any bill concerning the passage of which there is belief of corrupt dealing it will not become a law."

Col. Huff for Congress.

At Harrisburg, last Friday, the evidence in the "Congressional Mix" in this district was heard, by Judgew Weiss, who decided that the certificate of nomination of Col. Huff was invalid, on the ground that the Rules Committee for this county acted without authority.

This decision left the matter in the air; but on Monday Dr. Showalter went to Greensburg, and after dickering with Col. Huff, the rest of that day and up to noon of next, pulled down his flag and agreed to the Colonel's nomination. A certificate of nomination was made out and taken to Harrisburg and filed before midnight, the time limit of 4days), and as it is reported that the Democrats will now contest the legality of the nomination, Col. Huff will also file nomination, and these must be made.
