cases out of every hundred effect a perfect and permanent cure. a perfect and permanent cure.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 55 52th Place, Chicago, Ill. "He had such terrible coughing spells we not only grew much larmed but looked for the bursting of a blood-vessel or a hemorrhage at most any time. After three days' coughing he was too weak to cross the room. The dector dids him no good. I stated the case to a drugsist, who handed me a bottle of Dr. Pierce's Golden Medical Discovery, My husbands recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery, My husbands recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

The Common Sense Medical Adviser, 100S pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo. N. Y.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head casily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Dr. Humphreys.

FLOWER AND TREE.

Planting a few trees every fall or spring, as may be convenient, keeps up the supply of fruit.

The American persimmon makes a handsome tree ornamentally considered. It has dark green leaves that remain on late in the fall. Carnations do not thrive in the shade

One secret of getting flowers from potted plants is to let them get potbound. When a plant can no longer keep on growing, it turns its energies toward producing flowers.

By yearly attention to pruning and by good feeding a shrub may be re-newed from season to season and kept always strong. Old and weak wood should always be removed.

Ammonia is a plant stimulant, not a food. While it is useful to force plants into bloom and growth after the soil is exhausted, a fertilizer must be applied or the plant will use up its own vitality in bloom.

"What is the way to success?" we ask the great men. They cannot tell us. They know what upheld them in

every emergency, but they cannot define it. It was the sense of proportion. It measured, plumbed every circumstance and gauged every condition. It weighed relative values, material and human. It knew character when it and it and sifted the wheat from the chaff. It recognized opportunity, and it likewise made the most of it.—Cos-

Some time ago a registered packagent from the New York postoffice ontaining a large sum of money, was containing a large sum of money, was received at its destination apparently intact, but on being opened was found to contain nothing but waste paper. Suspicion could not be directed to any one clerk of the many who had handled it. The inspector had often noticed that the glue used at each postoffice had an odor distinguishable from that of any other. He investigated along this line and was finally rewarded when in an office near the destination of the package he discovered an idea tity of smell between the registered package and a gluepot on the counter. He caused a watch to be set upon the clerks in the office in the usual way and finally caught his man spending a

portion of his ill gotten gains. The most extraordinary of all Britis lighthouses is to be found on Arnish rock, Stornoway bay-a rock which is separated from the island of Lewis by a channel over 500 feet wide. On this rock a conical beacon is erected, and on its summit a lantern is fixed, from which, night after night, shines a light which is seen by the fishermen far and wide. The way in which this light-house is illuminated is this: On the island of Lewis is a lighthouse, and from a window in the tower a stream of light is projected on to a mirror in the lantern on the summit of Arnish rock. The consequence is that, to all intents and purposes, a lighthouse exists which has neither lantern nor lighthouse keeper.

One of Mrs. Stanton's Retorts. Once a fashionable woman of Newport expressed to Elizabeth Cady Stanton a fear that it was not entirely modest for a woman to speak in public. The dignified president of the suffrag-ists looked at her with mild surprise. 'Why," she said, "there are not so many people at our convention as there were at the ball last night, and surely it is more modest to make a sensible speech in quiet costume than to exhibit one's bare arms and shoulders at Fodder Cutters, and a public dance in the embrace of a strange gentleman."

Wheat and the Boy. Willie-Pa, what does "good a

Willie-Pa, would you say I was a "good as wheat?" Pa-I might after you were properly thrashed, and that's what will happer to you if you don't stop asking ques tions.—Philadelphia Press.

The Lucky Man In the Case girl who had such a bad disposition

LOST IN HOTELS.

fueer Things That Absentminded for her first football game to begin.
Her boy had played it ever since she could remember, and now he had made his varsity team, which was her var-Every hotel in New York has a storethe gratitude of travelers whose unfortunate habit of forgetting leads on either side as a bodyguard to her them to look for things that are misson either side as a bouygustu or agray hairs and as a bureau of information. They were happier than they would have been with the prettiest girl cles forgotten. When a hotel does a cles forgotten. When a hotel does a cles forgotten. When a hotel does a cles forgotten, while the state of the

they knew.

She smiled with motherly pride when she picked him out of the squad of red sweatered "huskies" which at length trotted out on the field. She wiped away a tear when a Columbia man fell across the lifne for a touchdown.

Then she exprised her bodyguard by muttering finder her breath: "Hold 'em hard, fellows!" "Twist their necks!" "Push! Push!"

She explained her knowledge of these strenuous technical details by saying that her boy cried out like that when playing dream games in his sleep.

She did not faint when he tackled too hard and failed to rise, although his white face, with a streak of red blood across the forehead, was staring up at her.

"You can't hurt my boy," she said, with confidence. "He's just doing that to get wind." So it proved.

He was up and at it harder than ever within the time limit. The Ithacans gained five through tackle and lost as many more yards trying to

ever within the time limit. The Itha-cans gained five through tackle and lost as many more yards trying to round the end. Then something hap-pened. "Sure enough, we found two glass eyes on the dressing table in a plush case. One was for daily use and the other for an emergency. Guests often forget their false teeth, but that was A sturdy youngster shot out of the the only case I ever knew of a man

under pillows. Of course when the owner's address is known and any-thing valuable is left he is notified and the article sent to him. If not called for in a few months, the forgotten article usually becomes the per-quisite of employees. — New York

PRIMITIVE PUMPS.

The Mechanism Used In Ancient Egypt and In China. A representative piece of mechanism Carnations do not thrive in the shade and will not tolerate the presence of rank manure. They are easily grown in any good garden soil.

One secret of getting flowers from cotted plants is to let them get potted. have been the shadoof, seen every-where along the banks of the Nile, an invention so simple and so well adapted to their needs that it remains today substantially the same at it has been through all the centuries since history began.

The same may be said regarding the chain pump in China, an invention the origin of which antedates the Christian era. This simple machine, which seems never to have been improved upon, is in such common use that every agricultural laborer is in possession Where irrigation is conducted on a lar-ger scale the chain pump is made proportionately larger and moved by a

these a young officer jabbed his sword, with a result that in far less time than it takes to tell it the whole advance guard was racing for dear life to the rear, and Sir Hope Grant hastily formed line of battle, believing it repulsed by the mutineers in force.

Cor. Main and Jefferson Sts., Butler, Pa

Rice stuffing for roast chicken or tur key is considered preferable to the usu al breadcrumbs. To prepare it brown one chopped onion in a tablespoonful of butter and mix with it four cupfuls of cold boiled rice and one cupful of breadcrumbs that have been moistened in one cupful of milk. Season with sage, parsley or other sweet herbs, as desired. Add half a pound of sausage meat or finely chopped salt pork and pilt and pepper to taste.

MARSH ROOT

Antiquity of the Boomerang.

The boomerang, the Australian native's weapon of offense and defense, referred to in all reference works as an instrument unknown until after the discovery of Australia, was doubtless known before the time of Christ. Pliny the elder, a contemporary of our Saviour, writes as follows in his "Natural History" respecting an instrument made of the wood of the aquifolia:

"If a staff made of this wood, when thrown at an animal, from want of strength in the person throwing falls short of the mark, it will come back toward the thrower of its own accord, so remarkable are the properties of that tree."

A striking incident of the relief of Cawppore was the rout of the Ninth learned Pliny did not consider the shape of the "staff" and referred its peculiarities to the nature of the wood of which it was made.

The application of steam to raising the division of first or vessels containing water is of uncertain origin. Long be for the Christian era certain application of steam to raising the law ter, by which effects were produced calculated to astonish ignorant wor strength in the person throwing falls short of the mark, it will come back toward the thrower of its own accord, so remarkable are the properties of that tree."

A striking incident of the relief of Cawppore was the rout of the Ninth learned Pliny did not consider the shape of the "staff" and referred its peculiarities to the nature of the wood of which it was made.
