

### TYPHOID GERMS.

The Little Bacteria Which Breed The Epidemic of Typhoid.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. They are supposed to get into the water or milk we drink. The germs multiply by growing long and dividing into two. This happens every hour, so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water will get the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and liver active. When the germs get into a healthy body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted from typhoid.

**PNEUMONIA AND GRIP.**

These two diseases, together with typhoid, chiefly engross the attention of our people just now. In fact, we can give it to put the body into a perfectly sound, healthy condition. Be assured that you have grip, typhoid, and an active liver. Occasionally take a good vegetable laxative, such as Dr. Pierce's Pleasant Pellets, to rid the body of the poisons clogging the canals. Pimples, boils, eruptions, extreme weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. Keep the stomach healthy, the bowels regulated and the blood pure and rich, and your body is a stronghold against which the germs of these diseases cannot make successful attack. When you are pale and feel exhausted or despondent consult nature. "Nature is the real physician in such cases," says Dr. R. V. Pierce in his book, "The Common Sense Medical Adviser." Exercise in the fresh air and sunlight is of great assistance in keeping the system healthy. Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots, which when made into an attractive candy (without the use of alcohol), seemed to be the very best means of putting the stomach, blood and vital organs into proper condition.

**NATURE'S WAY.**

This seemed to him as close to nature's way of treating disease as it was possible to go. For over a third of a century his Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a time-builder, better than cod liver oil because it does not sicken the stomach, or offend the taste. It strengthens and renews the system, and puts on healthy flesh when the weight of the invalid is reduced below the normal. No alcoholic tonic could be so effective, for alcohol stimulates up the red blood corpuscles, impairing their vitality and robbing the system of one of its most important elements.

**TO BUILD UP.**

A body that has been weakened by an attack of Typhoid, Grip or Pneumonia, nothing will put on healthy flesh so fast as this "Golden Medical Discovery." Cures others, will cure you. We do not ask you to believe in our assertion, for the proprietors and manufacturers of this "Medical Discovery" offer

### A BEEF RING.

What it is—How it is Organized and operated.

A beef ring is a union of farmers for the purpose of supplying themselves with fresh meat each week at a low cost. The ring usually has sixteen members, who supply the animals in regular order, one each week. A meeting is held in winter, when an organization is effected, the order of furnishing the animals decided by lot and a butcher and secretary appointed. The butcher is usually a professional one, usually receives \$2 per head for his services. Each member in turn brings in his animal, a young and fat one dressing from 400 to 450 pounds twenty-four hours before it is to be killed.

The butcher provides a suitable place for killing, furnished with a hook for hanging the animal in the evening and cuts it up in the morning, weighs each share, hangs it upon its respective hook before 9 a. m. and gives hide, head, heart and fat to the owner of the animal. He keeps an accurate account of the weight of each animal and of the quantity that each member receives per week. The difference of their shares the morning after it is killed, and each receives a bill-week piece, a roast and a piece of steak each week and receives the difference in rotation—that is, No. 1 cut goes to No. 1 man the first week, to No. 2 man the second week, to No. 3 man the third week, etc.

The secretary acts as valuator in case an animal is thought by the butcher to be below standard quality. At the close of the season he takes from the butcher's account the quantity received by each member and presents statements of this and of the weight of the animal furnished and the price per pound of all. If an animal weighs 400 pounds and he during the season received 425 pounds, he must pay for the twenty-five pounds received at the rate of 6 cents per pound if all the beef has been up to the standard. If B furnished an animal that is decided to be worth only 5 cents per pound and all the others are up to the standard he is charged 6 cents for all meat received, except the cuts he received of his own animal, which will be charged to him at 5 cents, and all the other members will be charged the rate of 6 cents for B's beef.

**The Farmer's Market Wagon.**

Farmers who regularly take produce to market or deliver direct to customers should have a wagon fitted with conveniences for that purpose. Such an outfit adds much to comfort and in the long run saves expense, says a New England Homestead writer in describing the following device:

Instead of wrapping the lines about the whip or leaving them where they blow up a keg of powder.

Dr. Pierce's Golden Medical Discovery is acknowledged as the most wonderful medicine ever devised for those diseases which are caused by imperfect action of the liver and digestive organs.

If your health is not strong and vigorous it is a simple and sensible thing to write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., and obtain from him and his staff of eminent specialists, without charge, professional advice which will enable you to put your constitution on a solid basis of health and strength forthwith, before these ailments have a chance to reduce you to a physical wreck.

**Dr. Pierce's Common Sense Medical Adviser** is sent on receipt of 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Instead of a rear curtain which not stretch—the olefin or canvas on a frame hinged at the top. It should be furnished with stays, jointed like those of a buggy top, as represented in the drawing. It serves as an awning and protects from sun or rain when the driver is standing in market or taking articles from the wagon.

**Two Good Reasons.**

Generally one does not know how little he knows or how poorly he knows it until he has tried to tell it to others. Also the way to know a thing well is to tell it to others. That tends to accuracy, sure knowledge.

Here are two good reasons for attending the farmers' institute and taking an active part in it, says John M. Stahl in Farm Journal.

**Things Said by Others.**

Too few of our sons and daughters are found in the agricultural colleges taking the courses in agriculture.

You don't know it all; even Solomon didn't. The other fellows can tell you a few things that it will be money in your pocket to know.

New ideas in farming spread slowly. Some years ago they did not spread at all.

Chance farming of any kind is a thing of the past among enlightened farmers. Each branch of farming is founded upon everlasting principles.

A man who has no pride in his business should quit the business.

If finding yourself making progress in intelligence than in kindness sit right down and think it over. It never pays to overdraw one's surplus of strength.

None others are so content with what they know as these that know little.

It is a great evil as well as a misfortune to be unable to utter a prompt and decided No—Simpson.

**Shooting Crocodiles by Lamplight.**

In the West Indian crocodiles are often shot at night. The hunter, with a lantern, sits in a canoe in one of the creeks which the crocodiles inhabit. The crocodiles are attracted by the light and swim toward the canoe. Their eyes shine out in the darkness and form good targets for the hunter's bullets. Sometimes a dozen crocodiles are shot in a night.

**Poetry.**

"Are you fond of poetry?" asked the young man with curly hair.

"Yes," answered Miss Cayenne; "poetry has done a great deal for me in life easier. It gives people an opportunity to use quotations instead of being original and tiresome."—Exchange.

**An Economical Wife.**

He—I can't send my clothes to the tailor every time they need a button. We must economize. Can't you sew on those buttons for me, my dear?"

She—Here, my dear; fasten them up with a hairpin. That will save thread, you know.

**Formal Indeed.**

She—The government's legislators seem to be formal men.

He—How's that?

She—Why, they will never notice a bill until it has been introduced.—New York Times.

**Remunerative Literature.**

First Author—What branch of literature do you consider the most remunerative for an author?

Second Author—who has just won a rich bride—Writing love letters to an heiress.

# Healthy Babies

are usually good babies, and good babies usually are healthy. The ideal food for infant, invalid or in fact, everyone, is the new table delicacy.

**Karo CORN SYRUP**

The Great Spread for Daily Bread.

Pre-digested, ready to be used by the blood as soon as it enters the stomach; hence the food for little folks. Supplies energy, strength, vigor.

Sold in strictest conformity with U. S. and C. O. standards.
