Judge Jesse Holdom, of Chicago, ha Judge Jesse Holdom, of Chicago, has issued a sweeping injunction against Chicago labor unions that is exciting much controversy in the Windy City. On the sworn statement of the Dearborn Duster Company that the Chicago Federation of Labor was engaged in unlawful acts of intimidation and violence, the injunction was issued, which, it is claimed, will render every member of a labor union responsible for all criminal acts committed during a strike. The injunction applies also to 45 girl strikers, who are restrained from using abusive language against the employes of the Dearborn company.

In Erie last week four striking moulders who had assaulted a fellow workman because the latter was willing to work, were found guilty, and Judge Walling gave them each a fine of \$25 and sixty days in jail. The judge said in imposing sentence that he did not doubt but that the defendants were good and reputable men, but the interference of the strikers at the shop with the employes must stop, the men having no right to molest workmen who had a perfect right to work at the foundry and to enjoy the freedom of the streets. He mentioned that he had given repeated warnings that the interference on the part of the strikers would not be tolerated.

PROPERTY TRANSFERS. Butler, Pa.

Dear Sir: Messrs Leachman & Edelin, Grafton, W. Va, had been selling a paint, which they thought well of and this had occurred.

They had sold a customer 18 gallons of it to paint his house. A few years later, they sold the same man Devoe lead-and-zinc the same number of gallons to paint the same house. He had 7 gallons left.

The point of the tale is: 11 gallons Devoe paints an 18-gallon house. Of course, that isn't all.

Why does 11 gallons Devoe go as far as 18 gallons of other paint? Because it is all paint, all true, no sham, and fall measure.

But that isn't all.

Devoe land a perfect right to work at the interference on the part of the strikers would not be tolerated.

The Cure of Crossed Eyes. The Cure of Crossed Eyes.

Few people realize the importance of early correction of the defect known as "crossed eyes." Yet there is a simple test which everybody can make and which proves conclusively that something should be done to remedy this unsightly and serious malady. Cover the straight eye with your hand and you will find that your sight is either very dim or at least considerably weaker than that of the other eye. Naturally, as a crossed eye is never used for vision and therefore becomes weaker the same as an arm that is constantly worn in a sling would finally refuse to do its service. The earlier this trouble is remedied, the better are the chances not only for correction of the disfigurment but also for improvement of the sight. "My son George," writes, Mr. Geo. C. Aul, of 712 Arch St., Allegheny, Pa. was operated for a case of very bad crossed eyes when he was a trifle over 5 years old, by Dr A.
