### CURRENT EVENTS.

Dispatches from Tokio tell of the arrest, conviction, and execution of a lapanese General, a man bigh up in the state, but who was selling the Japanese plans to the Russians. The dispatch asserts that on account of this man's treason all their plans for the land campaign have failed, causing the loss ndreds of men and thousands of lollars. It is now surmised that the ing the mountain ranges between he Yalu river and the railroad, and make an attack on Vladivostock, which is much nearer Harbin, the Russian base of supplies, than is Port Arthur.

Russian and Japanese accounts of the destruction of the battleship Petropav-lovsk are contradictory. The Russians ascribe it to an explosion of the boilers or explosion of a submerged mine under zine of the ship while the Japs say they did it.

The whole side of the ship was tor off and she turtled and sank so quickly that not a man below decks-the admiral, officers nor crew-could save on the bridge and the few men on deck were all that escaped drowning. The aptness of the Japs on the water; and the slowness or stupidity of the Russians is a surprise to the civilized

The Japs-Russ. war is not the only one going in the world. The Germans are having trouble in their colonies on the Western coast of Africa. For several weeks the Germans have been strenuously engaged in trying to reduce to subjection the insurgent tribe of the Ierreros, which has its residence in the Southwest African territory, but thus far they have not been able to make have killed and wounded a good many of the Herreros, but the latter are so numerous that the gaps made in their ranks are soon made good, and at last accounts they were about as far as ever from being pacified. In the meanwhile there is a German column missing and unheard from as to whose fate there is said to be the greatest uneasiness at the German capital and the painful con-viction is being forced upon the minds of the gentlemen in charge that it will tions in which he is engaged can be exted to succeed.

The Democrats of Lawrence county,

in Harrisburg, Tuesday, J. M. Guffey of Pittsburg had everything his own way. The delegates to their National onvention were uninstructed, and bound by the unit rule. Samuel G. Thompson of Philadelphia was nominated for Supreme Judge, and Guffey, Hall, Pattison and Wright are the delegates-at-large. Pattison wrote and read the "platform," which is said to be 'very readable;" and the only squabble the convention was over the two delegates from the Westmoreland-Butler Congressional district

Congress from a district in the borough of Manhattan, rises in all the wisdom of a Democratic statesman to remark that the less said in their national platform the better. Mr. Cockran expects to go to St. Louis and take a hand in the making of that platform, and, says "the fewer things it mentions the easier it will be for all Democrats to unite."

Carnegie's Hero Fund.

Commenting on Andrew Carnegie's five-million-dollar hero fund, the Philaselphia Inquirer says:

The fourth and fifth destroyer flotillas and the Keryo Maru reached the mouth of Port Arthur at midnight of the 12th, and effected the layling of mines at several points outside of the port, defying the enemy's searchlight.

known a wounded sailor on the Missouri dragged himself to the danger spot and sayed the ship with its precious human freight. No material inducement stimulates such action. It springs from the best instincts of human nature.

For the very reason that heroism is unselfish, unpremeditated in its results and so often disastrous to the origination, Mr. Carnegie has established a fund that has for its purpose the reward of bravery and the care of those dependent on the fallen brave. This is a proposition which strikes at the fundamentals of human nature, one which we think is basic and in its workings ought to be more helpful than many library buildings supported at the cost of the public. This is a stimulus to the soul and not a scheme for getting information. We hope to see enormous ethical and practical results from the new institution, which is supposed to round out one tical results from the new institution, which is supposed to round out one hundred millions which Mr. Carnegie has given in the last few years to public institutions of one sort or another."

### Kansas Fish Story.

While out rusticating upon the banks of Chetopa creek, the other day, the writer of this made on important discovery-two of them in fact. One is that fish will suck crude petroleum down in preference to any other kind of food. The other is that the oily waste which spoils so many fish in this vicinity is not acquired by absorption from contact with the refinery drain south of town. It has been supposed that the acid from the refinery was responsible for the bad taste of the fiesh of the fish, because oil always floats on the water, own way, and have further secured to the top of the water and along the their possessions in India from possible banks and eat the oil. Up on Chetopa attack by the Russians.

WIRELESS telegraphy is being used for the first time in war, by the Japs and Russians, and Count Cassini, the Ambassador from Russia to the United States, has communicated to our Department of State at Washington an order which has just been issued by Viceral Alexiff relative to its use by war attack by the Russians.

Creek, where a lot of eil ran into the creek from a break in the line from Chanute and Thayer, fish may be seen lined up along the shore, where a little of has collected, hundreds of them and all sizes and kinds, sucking the oil down as if their lives depended upon it. So most of the streams are more or less hard to find fish that have not become the intrudes upon the lawn? The very grass is torn up and left scattered over the ground. Would it not be well for contaminated. The water under the

# **SINCE 1893**

I began business n 1893. Who would then have predicted the great advance in wealth that has since taken place?

But I tell you, the coming years will beat it out of sight.

Get into the push with those who are going to reap the fatness of the country's advance.

I will carry you on 5 per cent. margins.
