Quite a bunch of the Democratic edi tors of this section assembled in New York, last week. From there they were taken up to Esopus, where they listened to a talk by Parker, who said nothing. They were then taken to the Coney Island show, called "Dreamland", an-

ance is long, but he gets right down to facts and uses as few words as possible. On the subject of the trusts he catches Judge Parker in a dilemma that will at-tract general attention to the means which the Democratic candidate will oloy in endeavoring to escape. Reing to Judge Parker's remark that e common law affords a complete d remedy against monopolies," Pres-tt Roosevelt points out that there is common law of the United States; its rules (those of the Common Law) can be enforced only by the state courts and officers." Therefore "to say that action against trusts as monopolies should be limited to the application of the common law is equivilant to saying that the national government should take no action whatever to regulate them."

A Russian correspondent of the Associated Press, in a graphic description of the fighting at Liao-Yang, says:

"Only the Russians soldier's traditional splendid qualities enabled them to support the terrible conditions, of which the lack of sleep was the most unbearable. The Japanese availed themselves to the utmost of rain and darkness, and did not cease fighting, their night attacks testing Russian endurance severely.

The Japanese suffered terribly, but made light of their losses. They continually drafted fresh reserves into the ranks to replace the worn-out men.

"Indeed the namerical superiority of the Japanese is astounding and incomprehensible, for after lossing enough men at Port Arthur and elsewhere to form a perfect army their effective strength are concentrating fresh bodies of troops on the Liao river.

Four years after the signing of the \$35,000,000 contract for the construction of the New York Rapid Transit Subway, and approximately on the day set for completion, this great work will be thrown open for the use of the public. The event will be marked by considerable civic festivity, and rightly so, for the Subway will not merely bring instant relief to the millions who for the past few years have suffered in tolerable crowding under the present inadequate means of transportation, but it is in itself, judged in comparison with other great engineering works of a like character, positively without a rival. Paris, Berlin, and Budapest have their subways; but in total length and carrying capacity they do not compare with our new system of rapid transit. Nowhere can there be found such a stretch of magnificent four-track road as extends from City Hall Park to One Hundred and Fourth Street, a distance of 6.7 miles, to say nothing of the 1st miles of three-track and two-track road that go to complete the system.

The section of the Subway that will shortly be opened represents the first contract, which was let four years ago for the sum of \$45,000,000. The amount mamed was merely for the construction of the road. School Note.

An interesting school note comes from Armstrong county. The West Frank-lin Township School Board still owes ac-Sheriff Gallagher \$20 rent; also, the school house is clear of the ex-sheriff's hay, and school, it is announced, will open Monday.

Gallagher claimed \$20 rent for the ground on which the school building stood. Failing to collect from the School Board be took possession of the building and stored in it his harvest of hay.

This week the School Directors of the township descended on the building, tore the Sheriff's lock from the door, pitched the hay across the road and prepared to open the school.
