These are the representaives of the species known as the Deloo and were captured in North the Deloo and were captured in North Africa last year. A remarkable pecularity of these animals is found in a pair of tear glands, which lie horizontally in a narrow streak across the hollow of the eyes. When excited the animal will cause the glands to open, not unlike the nostrils of a snorting horse. The Deloo is of a fawn color on the back with a tinge of yellow in front. Its ankles are almost black while the flanks are white. Black stripes run along its head and terminate in a dark brown tuft. There is every other along its head and terminate in a dark brown tnft There is every other known specie of antelope to be found in Mr. Sautelle's menagerie, which is re-plete with the most perfect specimens of animal life. A SICKLY CHILD.

iste any more time and money trying doctor each complaint separately. Doctor the Constitution. Vin-Tone takes right hold of any weak system and builds a good healthy foundation.

It puts life and vigor into the body and mind.

That is what the child needs, that is that it was the child needs, that is

what any person who is sickly needs. Vitality. ickly needs. Vitality.

People grow thin, pale, even become o ill they are obliged to give up their ecupation, when there is nothing trong with them excepting they are so ired, so weak, their vitality is so low.

To say that Vin-Tone is worth its veight in gold to those suffering from lack of evergy, is to speak lightly of lack of energy is to speak lightly of It is invaluable as it begins it with the first dose and in

transformed into strong happy men and women by this marvel of recent medical discoveries, Vin-Tone.

Good for little folks and big folks too. Pleasant to take.
