Dear Sirs: Clothing is just like paint; It fits or it dont, turns weather and water or not; and goes out of fashion. What do we wear clothes for? Did er think of it? Different persons good deal for that. And buildings are costly and fashionable; put-on a water-proof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint; it costs your buildings not to.

Devoe is the paint that lasts; disappointing paints are the paints that cost.

George Washington came west to where Pittsburg now is when he was a young man, and had a great time getting there and back. He tried it twice afterwards—once with Braddock—and got left. Pittsburg at that time was an outpost and Chicago had not been dreamed of. The other day a man rushed into the Broad street station, Philadelphia, ordered a special train, and was in Chicago eighteen hours later. The track was not cleared for him, he took his chances on the tremendous traffic of the main line and the trip cost him nearly \$2,000, but he wanted it and he got it.
