REPUBLICAN TICKET.

President—Theodore Roosevelt. Vice President—C. W. Fairbanks. Supreme Judge—John P. Ekin.

POLITICAL.

At the meeting held at Republican headquarters last Friday evening, Senator Williams made an excellent speech, reviewing the history of the Republican party from its beginning in the fifties, to date.

Republican rallies will be held Tuesday evening at Cooperstown addressed by A. M. Christie and possibly A. G. Williams, and Wednesday at Clayton by L. M. Wise and H. Negley.

Senator Kozz and Congressman Dalton are billed for a big meeting in Pittsburg next Saturday week, Nov. 6th.

Down in West Virginia peace came with Cannon. Uncle Joe got Dawson and Dayton together.

Senator Scott of West Virginia says Roosevelt will carry every state outside of the South.

The Republicans of Butler county although not much wrought up over the approaching election, will go to the polls and vote the ticket, feeling that they are doing that which is best for themselves and their neighbors and the country.

Next Tuesday, week, is election day, and the besting of New York has settled down to odds of 4 to 1 that Roosevelt will carry the country, and of 2 to 1 that New York will stand by him.

Heretofore there has been considerable backing of the Democratic candidate for Governor of New York, but voters are changing, and where the blood is not even the odds are now favoring the Republican aspirant, Mr. Elgin.

A feature of the week was the simultaneous giving out from the two headquarters of official estimates of the result. Here are the tables:

Table with columns: State, Electoral vote, Republican total, Democratic. Lists states like Colorado, Connecticut, Delaware, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

The weakness of the Democratic claim must be apparent even to the most enthusiastic supporter of Judge Parker. The best that it can do is to show 20 votes in the electoral college above the New York vote of 238. The loss of New York ends every chance. But even leaving that in the Democratic column it is impossible for any student of politics to figure out anything but a sweeping Republican victory.

HELEN KELLER had a remarkable reception at the St. Louis Fair, last week. The extraordinary demonstration was a tribute not only to a remarkable woman, but to the power of the human mind to figure out anything but a sweeping Republican victory.

The officers of the association shall be President, Vice President, Secretary and Treasurer.

The duty of these shall be such as naturally belong to the office, and the officers shall be elected annually in such manner as the society may determine.

The time and place of holding regular meetings shall be determined by the association.

All annual meetings shall be called by the officers, who shall constitute an executive committee of the association.

The following officers were chosen: President—John H. Negley. Vice President—S. S. Bell. Secretary—John H. Negley. Treasurer—Robert Story.

WAR NOTES.

The Russian Baltic Squadron, after eight months of preparation actually sailed from the port of Libau, last week, and by Friday had gotten around Denmark and was in the North sea. The squadron is composed of the Russian fleet on the East, and by England and Scotland on the West—the "banks" or shallow places of which are the resorts of the great English fishing or trawling fleets, just as the "banks of Newfoundland" are of ours.

Towards midnight that night, the Russian fleet passed one of these fishing fleets, examined it carefully with their search lights, and then opened fire upon it; killing two fishermen and wounding several, and sinking one vessel and its crew.

The Russian fleet, on its course, towards the English channel, without offering any explanation or any assistance to those it had just put in distress.

The fishermen made for the port of Hull as fast as possible, and reported the affair to their government, which has called upon the Russian government to explain without delay.

The action of the Russian commander was either a piece of wanton cruelty or else due to panic caused by the ridiculous report that Japanese torpedo boats were concealed among the fishing fleets, and all his Government can do is apologize, plead mistake and offer to pay which may not satisfy the English public in its present temper.

Just where the Baltic fleet will make its first stop is not known, as it started on its long journey "under sealed orders," and until it does make a stop the Admiral's explanation can not be known.

The destination of the fleet is not known to the public but is supposed to be Port Arthur, and whether it goes via the Suez Canal or Cape of Good Hope, the distance is about 15,000 miles, and as it can only travel as fast as its slowest members, in this case the colliers, it will take about 120 days to get there, by which time Port Arthur may have fallen into the hands of the Japs, and Vladivostok will be frozen shut.

The fleet is a formidable one, consisting of battleships, cruisers and torpedo boats, with enough submarines to sink the fleet. The Russian fleet is supposed to be about 200 miles away, and it is thought that it will be about two months before it gets there, by which time Port Arthur may have fallen into the hands of the Japs, and Vladivostok will be frozen shut.

ACCIDENTS.

Dr. G. M. Zimmerman missed his footing at the head of his cellar stairway, last Saturday evening, and fell to the cellar floor, breaking his left arm, but receiving no other injuries.

Frank Brackett met with an odd accident, and accidentally fell from the wagon his head going between the wheels. He called to the horses and they stopped, otherwise his head would have been torn off. People near hurried to him, and by sawing off a spoke of the wheel, raised him from his perilous position.

C. C. Ferguson fell over a wire in his back yard in Chicago, last Thursday evening, and struck his head against something which landed him, and he has been in that condition since. He had collected about \$90 that afternoon, and as this was missing, he may have been assaulted and robbed.

While Dr. H. C. Wiles and Richard Westernman of Chicago were horseback riding, last Saturday, the horse of the latter threw him. His foot became entangled in the stirrup, and before Westernman could stop, otherwise his head would have been torn off. People near hurried to him, and by sawing off a spoke of the wheel, raised him from his perilous position.
