War's Fearful Cost.

Since the beginning of the war, and up to the 13th of this month, the War Department of the Russian government had dispatched 767,447 men, 18,087 of them 146,408 horses, 1,931 field guns, and 116,281 tons of ammunition and food to Manchuria; which with thearrison of Port Arthur made an army of over 900,000 men, fully equipped and supplied.

Now Russia's whole effective force there is believed to be less than 800,000. Half a million Russians have been killed, wounded, made prisoners or become sick in a war lasting a little over a year—a terrible record.

On the water their entire Eastern fleet, including some of the finest battle ships afloat, has been destroyed, excepting two Cruisers in the harbor of Vladivostok, and a few battle ships and torpedo boats, which ran into neutral harbors and were dismantled. The Baltic fleet is somewhere on the Indian ocean; and the last heard of the Japanese fleet is in the Pacific.

ACCIDENTS.

Fred Kummer's horse became frightened, Monday morning and ran the buggy against a telegraph pole, throwing Fred out and bruising him.

Conductor Haws and Flagman Wagner were injured at Branchton, last Saturday, by the collision of parts of a parted freight train and both were taken to the Mercer Hospital. Mr. Wagner is a son of W. S. Wagner of Elm St. Butler.

An Italian named Maximo was killed by a flying rock which struck him on the side, while blasting at the stone quarry at W. Winfield, last Friday night.

Emma Leazi and Rounlo Mazzona, 9 and 10 years old respectively, Italian children, wandered into the woods near the quarry at W. Winfield, where they supposed were sweet myrrin. In a short time they became very sick. The girl died before the doctor could be summoned. The little boy's life was saved by the use of a stomach pump. It is supposed the children ate wild myrrin, which resembles the sweet myrrin and which is a deadly poison.

William Moon, aged 30 years, was killed by a fall of rock in the Sheridan mine in Clay twp., last Thursday. He was "pulling stumps" at the time, and his body was crushed to a jelly. He was a son of George Moon, of the same place, and intended quitting work at the mine and going to Ellwood, this week, where he was promised a position on the police force.

"Pulling stumps" is the miner's expression for taking out the pillars of rock that support the roof. It is a profitable but dangerous job for the miner.

Mrs. W. F. Marshall of Fourth St. left Monday and broke her wrist.

Grange Meeting.

John R. McJunkin, Esq., is the oldest member of the order of P. of H. of Forest Grange No. 370 on the 30th of March, 1905, aged 79 years and a hurt that he received in an accident by being thrown out of a buggy some years ago has prevented him from attending the meetings of the Grange. So the members decided to hold a surprise Grange meeting at his home, which they did on Wednesday, March 23rd, at the hour of ten thirty was the time arranged for the meeting and at that time the people commenced to arrive until his large and commodious home was filled with grangers. And while the members were discussing the various matters of farm life and the prospects of the candidates for the nomination of the different offices of the county the lady members retired to the dining room and arranged the table for dinner, having brought well filled baskets with them, and after a blessing was invoked, we proceeded to appease our appetites with the good things which Mrs. Dinner being over an organization was effected and N. F. Bartley, Secy. of the meeting was commenced by singing, "Blest be the tie that binds our hearts in Christian love," which was sung by the choir. The Rev. Mr. Bartley delivered a very interesting address, which was well received by the audience. After singing "God be with us till we meet again" the meeting closed with the singing of "The Church is our home." The meeting was a very successful one and the members were all well.

The Teachers' Institute held in Connoquessing, Saturday, March 18, from 1:30 to 4:30 and 7:30 p. m., was well attended. Many friends from far and near assembled with us that day. We had a very interesting program and had the best Local Institute ever held in Butler county.

Carl Christie, a place, a student of the Butler High School, with a bright intelligent look on his face, gave the "Address of Welcome," which was very effective and interesting. He was accompanied by Harry Dyke, a teacher of Connoquessing twp., who made a very interesting response.

N. F. Bartley, Esq., talked on "Literature," and certainly made a deep impression on the minds of all who were present.

R. F. McKeen of Chicago gave a very effective and interesting talk on "Teacher's Professions."

Prof. T. M. Wright of Evans City gave a general talk along educational lines.

R. S. Penfield of Chicago told us how to use our moral forces which was very instructive to the pupils.

Rev. Hugh Lyle of Zelienople impressed on the minds of all the "True Religion of the Bible."

A good talk on accuracy was made by Mr. Cashdollar of Callery, showing very effectively and interestingly a good education must be accurate.

With all these good instructors we had an interesting talk concerning the "Township High School."

We also had some good singing by a few young people of the town.

At 10:00 P. M. the crowds retired with the smiling countenances of a few young people of the town.

The contrary to the north of the position designated by the Russian government is a level plain, on which the Russians would have no advantage; and if they cannot make a successful stand there, Harbin and Vladivostok, and practically all of Manchuria will be in the possession of the Japanese.

On Monday the Japs seemed to have relaxed their pursuit, and Gen. Lindevich's scouts reported no Japs within thirty miles, but the Russians were fearing a wide turning movement, and were wondering what had become of Kawamura's army.

Yesterday it was reported that the Russian government had asked Minister Dulac of France to secure terms of peace from Japan.

Richard H. Little of the Chicago Daily News, Francis McCullough of the New York Herald, and the London Journal of Paris, and Baron Kriegerstein of the Berlin Kotal Anzeiger arrived at Kobe, Japan, on Monday, and were met by the Awa Maru, last Friday, having been captured by the Japs at Mukden. They say the heads of the Russian army are still on the Russian side, well on the Japanese. Several villages were taken and retaken four times.

The newspaper men were surprised to learn the Russians had not asked for an armistice or made peace proposals. They say Russia's position in the field is hopeless, that Kurapatkin lost all his heavy guns and the railway line.

This morning's dispatches indicate that both armies in the far East are preparing for another battle. It is reported from St. Petersburg that the Czar attempted suicide.

HARRISBURG.

Gov. P. vetoed the bill creating two new courts for Allegheny Co., and refuses to sign a Greater Pittsburgh bill with a sapper clause in it.

The bills taxing oil and coal will probably die in Committee.

Washington Notes.

President Roosevelt has announced that the present status quo will be maintained in San Domingo, pending the final disposition of the treaty.

Pressure by foreign creditors and the inauguration of a revolution caused President Morales to plead for the installation of an American agent to collect the revenues of the country and disburse them. Minister Dawson notified the state department of the urgency of the case and the president directed acceptance to the Dominican proposal, which involves a virtual protectorate over the Morales government for the present. This is simply meeting the obligation of this government to its own citizens and to its weak neighbors. First of all, it is in maintenance of the Monroe doctrine, and second, it is an acceptance of the only policy which will sustain that American policy without risking a collision with arms with one or more of the powers of Europe.

CHURCH NOTES.

A call has been extended by the Deer Creek U. P. Church to Rev. McIsaacs of Fishersburg.

The Sunday School Institute in the M. E. Church last Sunday afternoon was well attended, and appreciated by all.

The address in the various churches morning and evening are very highly spoken of.

Communion was held in the U. P. Church Sunday. Fourteen new members were received and the collection during the day, devoted to the congregations quota, to the Boards of the church, amounted to over \$300.

After making a fuss about it the Board of Foreign Missions of the Congregational Church accepted John Rockefeller's gift of \$100,000.

The National Christian Association in session in Pittsburg, last week, resolved that secret societies are contrary to the divine constitution of the family, and should be abolished to increase the number of divorces, etc.

H. W. Bame, secretary for the Sunday school district, including Jackson, Connoquessing and the other twps. has issued a call for a Sabathi school convention to be held in St. Peter's church. Both towns will have part in the convention.
