However, the pawn-ters refused to be "pinched" by the have paid a select few to have the ure killed at the proper time. The ensibility for the murder apparentvolved upon Clerk Garvin, and he went about his work in the most brutal way. The Philadelphia members had not been taken in, and they refused to stand for the slaughter. The exact amount of money employed to defeat the bill is just now in dispute, but the charge is openly made that the cash was divided among two or three persons, none of whom had a vote. The incident was probably the most sensational of the session, and provoked by far the was promptly passed in the Senate early in the session, but had been held back n the House to be "juggled" in the rush There was not sufficient rush and con utlawry of the chief clerk, and he was forced to beat a hurried and dishonor

Dr. A. W. Chase's Nerve Pills.

Overwork the stomach, or subject it to the depressing influence of worry. care, or constant excitement, and it gives out. Ask it to digest anything, everything, at any time, and in half the time required, and, and like any overdriven horse, it balks. The reason for this in the close nerve relationship between the brain and stomach, and the fact the irritation of either organ means the distress of the other Nature intended the stomach should have regularhours—a time to work, a time to rest- and when a time to work, a time to rest-and when you break up this habit you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act, the food does not digest—lies become the stomach of the heavy, ferments, and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous, irritable feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills its cure. Mrs. James H. Titus, of No. 107 Clin-

ton St., Warren, Pa., says:

"Dr. A. W. Chase's Nerve Pills are just splendid. My stomach bothered me for twelve years—food digested slowly—heavy after eating. I was fearfully dizzy by spells and very nervous. I tried everything—other medicines, doctors, anything I was told to, but the Nerve Pills I got settled all this. They cured me. I feel well in every way to-day—no weakness or dizziness, and digestion splendid. I have and will continue to recommend them strongly, as I believe the medicine to be unequaled in its ability to cure such troubles, as it certainly acted like magic with me." ton St., Warren, Pa., says: 50c a box at dealers or Dr. A. Recent statistics of Messrs. Willett and Gray for the season of 1904 indicate a total production of beet sugar in the United States of 209.000 tons (2,240 pounds each), being an increase of 18,000 tons in the preliminary estimate, all of which is due to the unusually fa-The largest increase shown in any on state was Colorado. New Wood Seasoning.
The "powellization" of wood is a new process reported from England for sea-soning wood quickly for immediate use by saturating it with a solution of beet sugar and then drying it with artificial heat. The treatment is said also to greatly increase the strength and the durability of the wood. The timber so treated resists dry rot. The wood is no longer porous and therefore more sanitary for such uses as street paving

Our Present Wheat Situation

The present wheat situation in United States was the subject of an adton before the recent meeting of the Association For the Advancement of Science. According to Mr. Williams, an increase in the consumption of wheat has gone steadily forward in this country since 1901, while the production has declined, so that at present, temporarily at least, the home cons tion and the home supply just about balance, leaving but little for expor

Great is the American corn plant, and to it is devoted a portion of the annual report of the Illinois state entomologist under the subject of "The More Impor-tant Insect Injuries to Indian Corn." The same is also published as bulletin No. 95 of the Illinois experiment station. Concerning, as it does, one of the industries of widest extent throughout the United States, the information given touches the interest of nearly every region of the country. Every farmer north, south, east and wes may take an instructive stroll with Dr Forbes through the entomologic field. There are few who will not learn somehing of worth from the practical report, and the illustrations really illustrate it in an exceptionally clear and

The importance of haste; two weeks ago we advertised bargains, they are nearly all gone, but luckily for you everything seems to be going wrong with us, we cannot haul Buggies and Wagons from the cars as fast as they are coming in, just got through with a car and have to begin on another. We are forced to get rid of some right away, we say right away. If you hurry up you will get a nice Top Buggy and a good set Harness, making a turnout good enough to go to your neic's wedding for even \$50.00 or a Slat Wagon and Harness for same price. If you send away and think you are bnying at wholesale you will pay \$10.00 to \$20.00 more for no better. We have a whole lot of other bargains we are offering to induce you to come in. such as nice tick-faced collars at \$1.00, good work team harness worth \$33.00 for \$27.00, collar sweat pads worth 40 cts, for 25 cts., good full rawbide buggy whips 25 cts., &c., don't think these bargains will be here forever we are advertising them to sell them and if you want any bargains don't wait a day.

LAST WEEK Half Price Sale of

Our Half Price Sale marks a sort of division between winter and spring. Of course, there will be a steady demand for certain of the staid and staple lines in heavy-weights till April, and this demand we shall meet. But the Half Price Sale is practically the round up of the fall and winter season-in this instance a season that has vastly exceeded all former ones in volume of business. We're determined to close out all
