Loss of Sleep Means Loss of Mind.

Inability to Sleep is Nature's Plain vous System.

Nerve Pills.

When you overWork any muscle or set of muscles they tire and must have rest. What is true of muscle is doubly true of the brain, as from it emanate all power to work, to act, to think. The brain is full of little cells that during brain is full of little cells that during the waking hours are never quiet in their efforts to furnish to every organ the power to do its duty. Rob these little cells of their rest at night—keep them at work all the time, and soon they tire, refuse to act, fail to generate nerve force and the system goes to ruin Bromides, sedatives, opiates only hasten the end—they do not build up, they tear down. The true remedy, the only cure, lies in Dr. A. W. Chase's Nerve Pills, a medicine that revitalizes, reinvigorates, and by properly nourishing these overworked little cells, give them rest and quiet enables one to sleep naturally and easily again.

Mrs. Fred Wholeben of Glade Run,

Mrs. Fred Wholeben of Glade Run Warren, Pa., says:

"I was induced to use Dr. A. W. Chase's Nerve Pills for excessive nervousness. I was so sick I could not bear a noise or much talking. I was very forgetful—my mind seemed dull. I was listless and tired all the time. The result of the use of a box I got was remarkable. They toned up the nerves and system generally and I work well again, am strong—my mind is clear Warren, Pa., says: and a system generating and I work went again, am strong—my mind is clear and noise and talk no longer bother me I am much pleased with them and can highly recommend them to any one who feels as I did".
