A NIGHTMARE

point to the fact that exce irregular eating disturbs the digestion Nightmare or night hag has its day tim correspondence in the undue fullness after eating, with the belchings and sout or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia or bad stomach. When the weak stomach is strengthened and invigorated the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"I was a visition."

lated.

"I was a victim of sleeplessness and extreme nervousness induced by chronic indigestion and I felt heavy, tired and worm out continually," writes Miss Mary Smith, of feli No. Wahsatch Street, Colorado Springs, Colo. "Dr. Plerce's Golden Medical Discovery was the only medicine which relieved me. With na week after I began using it that heavy oppressed feeling after meals had left me, and I found that I was able to sleep better than for months previously. My appetite was gradually restored, general system was toned up, nervousness became a thing of the past and I have now been in splendid health for over nine months."

Sometimes a selfish dealer tempted by for over nine months."

Sometimes a selfish dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It may be better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

SKIM MILK CALF AHEAD. leady to Make Economical Gains the Feed Lot.

With the advent of the hand sep-arator the question is often asked as to the relative merits of skim milk from the creamery and from the hand separator. A test comparing the two was made at the Kansas agricultural station with thirteen calves. At firs the calves showed a dislike to the odo of the sterilized skim milk, but the soon became accustomed to it and drank it readily. There was practically no difference in the gain made by the calves between the two classes of milk. The creamery, however, too pains to thoroughly sterilize the mil and was careful not to receive so milk that would give it a tendency to clabber. The hand separator skin milk was fed immediately after sep-aration. The calves receiving skim nilk were less subject to scours. sibilities in raising calves on it and also the variations in these result With young calves it requires a very small amount of feed to produce pound of gain.

Results of three different ways feeding milk, as to cost, are tabulated per 100 pound head. gain. \$5.27 \$2.28 19.13 7.06 . 12.00 4.41 This experiment shows that the fee cost of raising a good skim milk calf need not exceed \$5.27, in contrast to

\$19.13 for whole milk, and \$12 for one raised by the dam. A skim milk cali becomes accustomed to eating grain and roughness early in life, becomes entle, and when transferred to the In the Feed Lots. At the close of the foregoing experi-ment the calves running with the dams vere placed in the feed lots in compa

and whole milk. The results in th feed lots are shown in the following: Number Average Daily
of Months gain per gain pe
calves. fed. head. head.
Skim milk. 10 7 440 2.10
Whole milk. 10 7 465 1.83 ning with ms22 7 422 2.00

It will be seen that the skim milk calves made the best gains. The fee ecord shows that the skim milk calve produced 100 pounds of gain for 43 ounds of grain, while the whole milk alves required 470 pounds of grain per 100 pounds of gain, and the calves running with the dams required 475 ounds of grain per 100 pounds of

The Margin of Resistance. A careful reading of the bulletins or kerosene-limoid mixtures issued by the Delaware experiment station does no greatly encourage the idea that scale can be destroyed by a single application even of the 20 per cent dilution but rather that repeated sprayings o mixtures containing a lower percent age of oil may be needed during the summer months. Mixtures containing not over 10 per cent of kerosene may be sprayed when the foliage has hardened in midsummer without much in jury and is very effective in killing th larvae and young scales, but cannot be relied on to clear off the adults. Whether trees will endure repeated applica ons in one season of oily or causti assecticides is not fully demonstrated The margin of resistance to insecti-cides between the pernicious scale and tree tissues is narrow, and the latter's power of growth in some localities does not seem equal to the damage caused by frequent spraying.—Rural New Yorker.

WOMEN WRITERS. Sone Among Them Has Ever Attained Real Greatness In Poetry. Though the quality and range of her

enius were deep, generous and wide, Elizabeth Barrett Browning cannot be escribed, if language is to be used ac curately, as occupying a place among the poets justly designated great. In no tongue hitherto has any female writer attained to that supreme position, and were this the appropriate mo ment, which it is not, it would perhaps be possible to explain why no woman 6 0 is likely ever to do so. Not a few fe-male writers are in effect in the front w rank of novelists. But prose-romance is one thing and poetry quite another and there is a chasm between them nor does the circumstance of novels be-ing in this age more popular than po-etry affect in any degree the inherent and immutable difference. Elizabeth Barrett Browning was, "Aurora Leigh" notwithstanding, essentially and almost exclusively a lyrical poet. It would be easy to add almost indefinite-For Hot Weather Wear y to illustrations of her being one of hose who "learn in suffering what

Nervous Dyspepsia.

Disease That Robs You of Every Pleasure in Life-Hungry and Can't Eat-Makes You Nervous, Morose, Sullen, Irritable and De-

spondent. Dr. A. W. Chase's Nerve Pills.

Overwork the stomach, or subject it to the depressing influence of worry, care, or constant excitement, and it gives out. Ask it to digest anything, everything, at any time, and in half the time required, and, and like any over-driven horse, it balks. The reason for this in the close nerve relationship be-tween the brain and stomach, and the fact the irritation of either organ means the distress of the other. Nature intended the stomach should have regular hours—a time to work, a time to rest—and when you break up this habit you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act, the food does not digest—lies heavy, ferments, and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous, irritable feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills its cure.

Mrs. James H. Titus, of No. 107. Clir.

Mrs. James H. Titus, of No. 107 Clinton St., Warren, Pa., says:

"Dr. A. W. Chase's Nerve Pills are just splendid. My stomach bothered me for twelve years—food digested slowly—heavy after eating. I was fearfully dizzy by spells and very nervous. I tried everything—other medicines, doctors, anything I was told to, but the Nerve Pills I got settled all this. They cured me. I feel well in every way today—no weakness or dizziness, and digestion splendid. I have and will continue to recommend them strongly, as I believe the medicine to be unequaled in its ability to cure such troubles, as it pertainly acted like magic with me." 3
50 cents a box at dealers or Dr. A. W.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal trubles, the proprietors prepare Cream Baim in liquid form, which will be known as Ely's Liquid Cream Baim. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.
