LOCAL AND GENERAL.

"Evening red and morning gray
Will set the farmer to making hay:
Evening gray and morning red
Will pour down rain upon his head."

—The Phillips Gas Co. has raised the price to 15 cents a thousand.

—Cloudbursts and washouts have done considerable damage lately.

—According to tradition the alleged dog-days begin July 3d and end Aug. 11th.

—Advertising is an art that pays. Few things are so profitable when well done.

—The Street Car Co. is making a 14-foot cut on their grade to the Fair Ground.

—It requires 30 years to grow maple shade trees a foot in diameter. No wonder trees are valuable.

—The Union Cemetery Association of Ean Claire and Venango twp. will apply for a charter. See notice.

—Some of the houses of Valencia are to be moved back to accommodate the new trolly, which will parallel the railroad there.

—Many a talked of statue or painting has been explained to mean this or that and duly admired when it meant nothing whatever.

—It has been announced by scientists that this year in the United States the greatest number of flies ever annoying the inhabitants will appear.

—A threshing machine with traction engine and wind-stacker costs $1875.00. Jos. Elliott of Petrolia bought one, the other day, from C. C. Johnston.

—What with mosquitoes and sereaders some people on W. Pearl and Bluff streets, that we might mention, got but little sleep last Friday night.

—Notwithstanding the wet weather our farmers generally got their hay and wheat up in good shape, but the oats is down, and in bad shape for harvesting.

—Some of our farmers have their oats up in good shape. They thought, at first, that they would have to pick up each straw and clip it off with the scissors, but it wasn't so bad as it looked.

—Potatoes bid fair to become a drug on the market before next fall. All of the western states have fine crops of spuds, and the consumer will profit by the low prices even if the producer doesn't.

—The prevalence of cholera infantum suggests the publishing of the old Scientific American remedy for it, i.e., wrapping the child's body with a woolen cloth that has been soaked or moistened in liquor.

—A farmer with a load of hay upset at the crossing of Main and Jefferson streets, Tuesday noon, blocking, for a time, all the street car traffic. The wheel of the wagon probably caught in the curved track there.

—While Jacob and Martin Long of Jackson twp. and all the family were in the hay field, a few days ago, thieves in waiting, broke open the house and ransacked it securing five pocketbooks containing about $200 in all.

—It is an old saying that wheat that has had some rain on it after being put in shock makes better flour than the wheat that has escaped rain. Flour makers may be able to give satisfactory answer as to whether the old saying is correct.

—The new route from Butler to Pittsburg, landing you at the Union station is interesting. That bridge at Aspinwall is an immense affair, and from it the new road rises over the hills and then drops to the main line near the city limits.

—The epidemic of yellow fever at New Orleans is being spread by the mosquitoes—at least some people think so. These insects will get into a house no matter how well it is screened, and the best way to kill them is to burn sulpher in the closed room.

—Seven hundred tickets were sold at the station here for the W. O. W. excursion to Erie, yesterday morning, and in all about eight hundred people went. Rumors of a wreck spread over the town that morning, but there was nothing of it. A large number of citizens, also, went on the excursion to Rock Point.

—The confusion of trenches, tubes, overhead-carriers, lumber, etc. on the the river, just above Aspinwall, means that they are building the plant there for the filteration of the water supply of Pittsburg, but only the artists and contractors can tell what it will look like and how it will work when completed.

—Samuel Shipley, 14 years old, and Denzil Graham, 11 years old, are in jail at Cadiz, O. charged with placing angle irons and a linchpin between the rail joints on the railroad track in an attempt to wreck the Cadiz branch train. The boys are alleged to have said they had never seen a railroad wreck and wanted to see one. The train passed over the obstructions safely.

—The local baseball team took Bruin into camp, 11 to 4, last Thursday. Friday, with Witherup in the box, they shut out the fast Washington, Pa. Collegians, 3-0. Saturday, with Harkins in the box, they were defeated by Washington, 3-2. Monday the Indiana team arrived for two games. That afternoon the home players played "dopy" and Witherup was hit hard, the visitors winning, 7-4. Tuesday Ed Marshall held the visitors safe until the ninth inning when they hammered him for 7 hits and scored 7 runs, winning 8-4. Bert Troup of Buffalo made his first appearance for Butler in this game and knocked out two doubles and a single. Wednesday morning the Butler and Indiana teams started for Indiana to play two games. On Monday Mark McLafferty had his right hand so badly bruised that he could not play Tuesday, and the same day Manager Charlie DeMoss was called to Allegheny by the death of his mother-in-law.

Mr. Jesse Heydrick of N. Bluff street, on Monday, presented us with a boquet of his seedling gladiolas, one of which he calls the "Celestial Beauty"—a cross between a pure white and a crimson, and very beautiful. He has hybridized these from the choicest varieties of the great nurseries of the country and has improved upon them, and now has several thousand seedlings ready for the market.

John H. Turner, who about a year ago, sold his coal interests near Hillards and who has since been living a retired life in Grove City, has again entered the ranks of the coal operators, by purchasing the mines of the Evans City Coal company at Evans City, from Wm. Bishop, receiver of the company. The papers were signed last Wednesday and at its close a check for $14,700 passed from Mr. Turner to the receiver.

—One of the easiest men ever heard of was swindled in New York recently. The crooks showed him a machine that received blank pieces of paper the size of script and turned out $5 bills. The victim took three or four of the bills thus produced to the postoffice and found they passed as good and then gave $1,100 for the machine, forgetting that if it would do the work its owners needed no money from any one. The swindlers were sent to jail. The victim is still at large.

FIRES.

Henry Greenert's house on Elm St. was destroyed by fire with nearly all its contents, yesterday afternoon. It was a double house and was occupied by himself and his son-in-law, Palmer West. The fire is supposed to have started in the second story but nobody knows how. West and his family were at Erie on the W. O. W. excursion and nobody was in the house except Mrs. Greenert. The loss is about $3000, with some insurance.

BIG BUTLER FAIR.

Time passes and in three weeks more the Big Butler Fair will be on hand and every person will be there. The indications now are for the largest crowd and finest exhibits that have ever been assembled in Butler county. It seems as though everybody is making arrangements to take that week for the Fair and no person who has never been to the Butler Fair can understand the immense affair that it is, and the pride everyone takes in telling they have been to the Fair, because it is their Fair, managed in the interest of the many and not of a few. It is no catchpenny affair but a high class educational institution calculated to make everyone better because they were there. If it were not that the Directors wanted to please the people they would not have engaged the Great Demerast Equestriene aggregation at the cost of nearly one thousand dollars, in addition to all the other attractions. Entries are already coming in of High Class articles and animals, and it looks as though in order to see the whole exhibitor, will require several days, but it only comes once a year. The week of all weeks, here is the place to meet your friends, many you have not met for years, you see them at the Fair, they come to see you and expect you there. Don't disappoint them, you can bring your dinner along if you desire and eat it in the beautiful grove, or you can get dinner on the grounds. Thousands take their dinners along, and it is quite customary now to hold family reunions on the Fair Grounds. The grounds are large and plenty of good water and shade. Tell everybody you will meet them at the Fair, your Fair, their Fair, everybodys Fair that behaves themselves. Don't forget the date, its only three weeks. Begins August 22nd and lasts four days, and every day will be good.

SUMMER COLDS.

Summer Colds, Hay Fever, Rose Catarrh and Influenza might be classed as Summer Grip and are most distressing and exasperating, especially for those who cannot indulge in an ocean voyage or a trip to the mountains. The suffering is keen and acute for the stay-at-homes.

Dr. Humphreys' Specific "Seventy-seven" has earned a well deserved reputation as a cure. The use of "77" stops the sneezing, relieves the asthmatic condition, soothes and heals the mucus membrane; the running from the eyes and nose ceases and confort is restored.
