res for Congress the chances to that we are voting against our own terests; and the sending of weak or aprincipled men to Harrisburg is but aying into the hands of the money

A thousand millions, the principal thousand millions, the principal per of the Japanese suite at Portsmouth is reported to have said, is not so much money when you come to look at it in certain lights. It would be interesting to know in just what lights this stupendious sum would look small. In this country we talk glibly of large ms and own at least one corporation ith a capital of over that figure, but in with a capital of over that figure, but in spite of that it takes a man with an un-

ong time growing and it may be doubted that any one, even the taxpayers of Russia and France, realize what me year. It is more than the entire of the 6,928 State banks and would rep esent about an equal proportion of the total money in circulation in this country to-day. It is one-third of the total

a thousand millions is a right snug In view of the fact that the best indemnity of such proportions would en-able them to say that from a purely
