Concerning New Parties.

Delegates from forty counties repre-santing the "Lincoln Republican Party" met in Philadelphia and indersed Mr. Berry, the Democratic candidate for State Treasurer. The object of the meeting as explained by the chairman, was "for the deliverance of the govern ment of Pennsylvania from the hands of corrupt and dishonest men." We have no fault to find with the object, which is entirely laudable. But we do not believe in these side-issnes, these sprouts and off-shoots from the parent lican tree. It tends to weaken it, If the Grand Old Party needs pruning. why then give it a vigorous pruning but do not permit its vitality to be sapped by encouraging unwholesome ex

traneous growths. The Republican party is vigorous enough to eliminate any poison or cor-raption within it by natural processes. It isn't necessary to join a new party in order to vote independently. Any man who regards it as a duty to vote against a candidate of his own party is at liber-ty to do so. And it is by far the most effective way to cure any evils that may exist within it. If a candidate is ted through the efforts of a third party, it is afterwards attributed to the ess of the new party instead of the virtuous indignation of the more conscientious adherents of the old one, the blow is thus parried by those a rhom it was aimed. When a thing eeds to be hit the manly way is to strike straight from the shoulder, and hit it hard. There is no need of chang-

ng your name to do it -Spirit. And the things that deserve hitti the hardest in the G. O. P. are th Ward and Township "heelers"-the men who buy votes and have them for sale at every primary. It is a sad fac that some alleged Republicans sell their franchises to the heelers who in turn sell them to the highest bidder.

This business is carried on in ever, ward in this town, and also in some of the townships. In some cases our party nominations have been controlled them, and the longer this work is condon the more useless it will become for either a poor or honest man to aspire t

In the large towns it is practiced to a far greater extent than in the small The ward heelers in Philadelphia heretofore been the whole show nere and it was them who made pos sible the domination of the crowd there, who yet control our state organization, but whose power in the city has been broken by a political revolution followng the exposure of their methods. The ward heelers of Philadelphis

by declaring that reformers had defeat ed Biaine and Harrison for the presi-dency. In this he was as wrong as he generally is when he comes to discuss political questions. It is a matter of history that Blaine was defeated by the vote of Oneida county, N. Y. the home of Roscoe Conkling, who was a regular of the regulars and the apostle of ma-chine politics. He was the close friend and associate of the Camerons and Quay. He always maintained that it was treason to cut the Republican ticket, but, like all such sticklers for regularity, he did not hesitate to defeat for castisfy his personal grievance. In this State the Camerons and Quay were hostitle to Blaine, and did not raise a hand to help him. The Blaine forces were led by John Stewart, at present justice of the State supreme court, and who two years before had

Had Blaine been to of jurymen then proceeded and was finished Tnesday afternoon, the been chosen to the United States Senate, and superseded Don Cameron. and superseded Don Cameron. This was well known to the State machine leaders, and hence they desired the de feat of Blaine, and were overjoyed when it was accomplished by their friend Conkling. As to the defeat of Harrison when a candidate for re-election, practically the same statement may be made. Quay was bitterly opposed to his renomina-tion and did nothing to secure his elect tion. He knew that Harrison's re-elec-tion. He knew that Harrison's re-elec-tion. He knew that Harrison's re-elec-tion meant his own retirement from the United States Senate and the election of John Dalzell' in his stead, and also that his place as leader of the machine would have been taken by the late C. L. Magee, who was in high favor with Harrison. Quay's friends in Pennsyl-tania and New York and other States herefore sulked in their tents or voted gainst Harrison, who had the earnest apport of every true Republican in 'ennsylvania. Herrison's defeat led to be re-election of Quay to the States and provide the deform of the object on the states and as many as necessary for canse, apport of every true Republican in 'ennsylvania. Herrison's defeat led to be are election of Quay to the Sante and the domination 'his corrupt machine, to the meanning 'his corrupt machine, to the meanning

support of every true Republican in Pennsylvania. Herrison's defeat led to the re-election of Quay to the Senate and the continuance of the domination of his corrupt machine to the present day.
 The Independent Republicans of Pennsylvania, who have always been arrayed against the Cameron, Quay and Penrose State machines, have never failed to support the Republican candidates for President or any honest candidates on the State ticket who represented the real will of the party.
 The machine leaders, on the contrary, have twice helped to defeat Republican and the acting was had on the case be the second dates, also such State inde to defeat Republican are greater man than Clay or Webster.— Ex.
