To the few intimate friends who received election returns with him at the White House. President Roosevelt did not hesitate to express satisfaction with the triumph of the reform element. He was particularly gratified over the election of Jerome as District Attorney in New York and the victory of Mayor Waver and the city ticket in Philadelphia. It is said, also, that while somewhat surprised over the way the voting went generally in Ohio, he did not shed any tears because of the defeat of the Cox machine in Cincinnati, When Secretary Taft made his famous speech at Akron, in which he declared that if he were in Cincinnati on Election Day he would vote against the local Republicant ticket, it is believed that he echoed the sentiments of his chief. The recent suffered that he would take "personal charge" of a certain ward, in the interest of a certain candidate—and the other fellow got nearly all the votes of both parties.

Edward D. Reilly (Dem.) will not accept the office of County Commissioner of Lancaster Co., to which he was elected after one of the bitterest political battles in the history of the county. Reilly won over Eli Hess, the Lincoln candidate. The reason advanced by Mr. Reilly is that he cannot conscientiously take the oath of office, as he gave Hess a note for \$1,000, ostensibly to cover campaign expenses, to secure Hess' withdrawal in the Democratic convention, which assured Reilly's nomination. Hess never cashed this note, the receipt of which he publicly acknowledged and it figured prominently in the campaign. It is claimed that as a consequence of Reilly's refusal the court will reappoint J. Val Wise, present Democratic Commissioner.

The finding of mutilated ballot boxes in the North river, in alleys and in the dark corners of voting places in New York confirms the suspicion that Tammany was practicing its usual crooked tricks at the late election. It is too early to say whether these disclosures and a recount of the votes will place. Hearst in the mayoralty seat or leave McClellan safe with a further reduction of his slim plurality, but there is no question that frauds were perpetrated at the polls.

One feature in connection with the proposed contest of the election for Mayor in New York is worthy the study of Pennsylvanians and particularly of Pittsburgers. When it appeared that there was doubt as to the honesty of the count there was appairmous expression. there was dount as to the nonesty of the count there was unanimous agreement outside of Tammany that the ballot boxes should be placed in custody at once and a recount had at an early day. Such lawyers as Jerome, Ivins and Judge Gaynor approved this course; and the imminent probability that it would be done may have had its influence in the bestowing of ballots in the river. the bestowing of ballots in the river and in alley ways. The reason for this course is plain enough. The honesty of elections is so clearly the foundation of republican government that any doubt casts a cloud on the title. If it is worth while to spend millions to hold elections it is certainly worth while to take the extra time to provide a check on fraud by an easy examination and recount. Ticket it must be said that the defeat of the Citizens is deserved. Starting as a reform party they made a record of violated pledges from the first bug test and maintained that unfortunate record on all the important franchises. While they showed some improvement in the administration of city and county offices this failed to compensate for their bad faith with regard to the vital pledges on which they first secured public approval. The inevitable result of this was to alienate public confidence and prepare the way for the defeat they have sustained.

HARVESTING CRAMBERRIES. Picking and Storing the Best Keep-

The effect of time of harvesting cran-berries on yield was investigated at the Wisconsin station. Here will be exposed to public sale at the Court House'in the borough of Butler, Wisconsin usually begins the fore part of September, no matter what the condition of the crop. In the test, berries were picked Sept. 8 and 24 and Oct. 8.

"The growth during the thirty days showed an increase in size of 19 per cent, 10 to 11 per cent being realized during the first sixteen days and the rest of the growth between Sept. 24 and Oct. 8. It will thus be seen that almost 19 per cent clear profit on a crop would have been realized could the picking have been deferred thirty Wisconsin usually begins the fore part the picking have been deferred thirty

Grading the Berries. After harvesting, cranberries are graded according to size and quality. The Wisconsin station describes a very successful apparatus for this purpose. The berries are first poured in the hopper of the machine, from which they pass through a fan blower, which takes out the chaff, etc. Then they fall
